# GERMAN INFANTRY REPULSED FIVE TIMES MANY AMERICANS FLEEING MEXICO

**Successive Onslaughts on Verdun Are Rolled Back by Bayonet and Shell, Says the Report**

**FRENCH BELIEVE DRIVE IS BROKEN**

**Military Experts Point Out That Every Art of War Has Been Put in Use, But Only to Fail**

BERLIN, March 17.—The German official statement today reports two attacks by the French on "our positions on Dead Man's Heights." Both of these were unsuccessful, it is declared.

PARIS, March 17.—Important infantry assaults on the French lines east of Verdun were made by the Germans during the night. Five successive onslaughts in force were repulsed by the French.

With the successful countering of these assaults, French critics generally believe that the third battle of Verdun has passed its crest. Although there was no mistaking the desperation and fury of the German attempt, observers say, this cumulative effect was far less than that of the earlier struggles at Douaumont and Vaux.

In the operations at Le Mort Homme, the speed and the energy of the earlier drives have been lacking. Not only was the artillery fire much less intense, but the whole battle dragged inexorably. When the batteries had done their best to destroy the French shelters and trenches, the standard of the customary rapid throwing forward of infantry there was delay, in which the French had ample time to reoccupy their lines. Even the successes that had been won were not followed up.

**SEE EXHAUSTION.**  
Observers see in this weakening attack a general exhaustion of the German army. With the terrible slaughter exacted during twenty days at Douaumont and Vaux, even the German commanders have hesitated in sacrificing great masses of men in insignificant gains. Infantry attacks have grown constantly fewer, with a consequent loss of vigor and elan in the troops.

Indeed, it would be difficult to describe the general jubilation in Paris. There is no longer any uncertainty about the fate of the battle. The last doubt—and it can be admitted now that even high quarters there were misgivings that the great fortress could withstand the 42-centimeter Krupp and those terrible Skodas—has been swept aside. The big gun has been met and conquered by men and other guns.

**AVANCEMENT WITHSTOOD.**  
Until the battle of Verdun nothing known to the science of warfare had been able to oppose the German artillery. Wherever it had been massed in sufficient quantities—on the Donau, on the Vistula, on the Stripa, the Divinsk and the Danube—human flesh had not been able to stand against it. And until now it was not even certain that Verdun could withstand the avalanche of fire. General Sarrail, commander of the fortress before Petrain, believed that it could not. All the heavy guns placed with so much care in the disappearing steel cupolas of the forts he ordered dismounted.

**Tire Factory Plans Unit on Boulevard**  
Another big factory for Oakland was announced today through the Manufacturers' Committee of the Chamber of Commerce, which was declared that the Pacific Tire & Rubber Co., a large tire manufacturing concern, is to commence operations at once on the first unit of a million dollar plant on the Pothill boulevard, near Stanley avenue. This announcement, following close on the announcement that the new Chevrolet plant would locate on the boulevard has, according to reports here, established this locality as a future center of big automobile and accessory factories. The first unit of the new factory, according to its president, Varney K. Sturges, will cost \$250,000.

## UHL SETTLES AUTO ACCIDENT CLAIM FOR \$6500

**Widowed Mother of Bess J. Smith Is Given Net Sum.**

What is declared to be the largest cash settlement of liability growing out of a single accident case in Alameda county has been adjusted through the payment of \$6500 to the widowed mother of the late Bess J. Smith, who was killed February 24 when struck by an automobile driven by Adolph Uhl, capitalist.

Claims for damages were made to Uhl and his accident bonding company by friends of the Smith family. The negotiations for the settlement were completed by Dr. C. D. Hamilton, acting with power of attorney for Mrs. Smith. The amount agreed upon was paid by Uhl and the company which assumed the liability for accident resulting from his driving his automobile. But he had been placed in the hands of Dr. Hamilton as trustee.

While large judgments have been obtained against defendants in suits for damages in Alameda county, reaching as high as \$20,000, the amounts finally paid to the beneficiary have never exceeded the present settlement over the death of Miss Smith, according to legal men familiar with such cases. The \$6500 was net, there being no attorneys' fees or commissions exacted in the settlement, which was also effected in record-breaking time, less than twenty days after the fatal accident.

**Enlistment Question Serious in England**  
LONDON, March 17.—It was well past 1 o'clock this morning when the House of Commons adjourned after a protracted debate nominally on army estimates, but really covering a wide range of topics. There were many heated passages regarding the problem of calling out married men. It was announced in the lobby of the House of Commons that a conference will be held Saturday between the higher military authorities and the recruiting commanders.

The real seriousness of feeling throughout the country on this matter was reflected in the House of Commons, where members showed the state of their minds on the vote for adjournment. The government demanded adjournment until Tuesday and the government got its wish but only after a division which was carried by six votes. This is the most serious division the coalition government has yet faced.

## FUN POKED AT CADETS IS RESENTED

**U. C. Publication Does Not Take Soldiers Seriously**

**Faculty Members Much Incensed at Bold Cartoon**

Aspersions which have been cast upon the University of California Cadets by members of the student body, and especially in the Pelican, the campus josh magazine, which appeared today, have aroused the ire of the college dons, and it is expected that the attention of the student editors will be called to the desirability of keeping such matters out of their publications. Major John T. Nance, commandant of cadets at the university, was apparently too incensed this morning to discuss the cartoon.

"There is no comment I care to make," he stated.

The cartoon to which the college authorities take exception shows the university cadet in a physical disposition and with an equipment that would hardly fit him for real service for his country. The cartoon is made to appear representative of the student soldiers in general.

**NO ACTION TAKEN.**  
The Pelican has not shown, in recent issues, a strict concern for the propriety in general. The last issue had as one of its features a cartoon of a "sandwich man" whose signs were suggestions of the posters issued by the United States army and navy departments inviting enlistment. But the "sandwich man" between the signs was a skeleton.

No action toward suppression of the current issue of the Pelican was taken. The magazine was circulated on the campus this morning. On a previous occasion publishers of the journal were summoned upon the carpet for caricatures, but what course will be followed in the present instance has not developed.

**MAY HAVE TO SURRENDER.**  
An indication of the fact that the federal government itself has an eye on them was given the cadets yesterday, when figures were taken on the members of the regiment 15 years of age and older. The members were to present arms. There were less than a score under military age.

Major Nance explained this morning that the request was made upon directions received from the department purposes only. The members were not more subject to military duty than other able-bodied male citizens of the same age. The government is collecting similar statistics from all American colleges where it maintains military training.

**Ford Peace Delegates Present Another Plea**  
LONDON, March 17.—The German minister of foreign affairs, Dr. K. A. Wallat, today presented a peace mission. The delegates presented an "address to the neutral governments" asking that steps be taken to hasten the end of the war.

The minister replied: "We are as eagerly desirous of peace as yourselves, but we can only offer motion pictures of the belligerents formally desire peace. It is not pressed, and it becomes clear to us that we can do anything to bring about peace, we shall not fail to do all that is possible. At present we must confine our services to assisting to the best of our power the unfortunate victims of the war."

## FINE FROCKS TEMPT GIRLS WHO STEAL

**Suske Sisters Loot Home of Mrs. F. S. Roumage in Berkeley**

**Confession Reveals the Theft of \$3000 Gown; Police Arrest Pair**

The lure of finery to which they had never been accustomed proved so attractive to Charlotte Suske, 15 years old, and Helen Suske, 15, that they stole, according to the confession of the elder sister, \$3000 worth of fancy dresses and other clothing from Mrs. F. S. Roumage of 1306 Bay View Place, Berkeley, by whom they were employed. Both have been taken into custody.

The older girl was arraigned in Judge Edgar's court this afternoon, following her confession of the crime, and the younger sister has been handed over to the juvenile court. One dress upon which Mrs. Roumage places a figure of \$2000 was a chief item in their loot. Another dress worth \$200 and several articles of lesser value were taken.

All of the goods which Mrs. Roumage missed were found in their room at 1734 Fifteenth street. Charlotte Suske was employed for three weeks as a domestic by Mrs. Roumage, whose husband is an automobile dealer.

Mrs. Roumage soon after the girl was employed missed several articles of clothing, but was unable to trace the details of the theft. One day Charlotte told her that she had secured another position, but recommended that Mrs. Roumage hire in her place her sister Helen. This Mrs. Roumage did, and the pecuniations continued. Finally, on the day that Helen also left her position, Mrs. Roumage made complaint to the police.

Detective D. H. Fraser was detailed upon the case. Both girls at first strenuously denied the charge. When Fraser persisted Charlotte broke down under the questioning and admitted the thefts. The younger sister still energetically denies having stolen any of the articles found in her possession.

She declares that these were given to her by Mrs. Roumage. Mrs. Roumage states that she gave nothing. The girls, however, say that they were given to them by their father, who was a domestic in the household. The family recently came here from Benicia and are in very poor circumstances.

That could not help taking some of those things, said Mrs. Suske to Detective Fraser. "It didn't seem right for her to have so many beautiful things and for me to be going around with hardly anything but rags. I am sorry I did it but I just couldn't help it."

Representative Kahn interrupted to point out that while the bill provided for a peace strength of 14,000 fighting men, in the immediate of war the President could bring it up to more than 170,000.

"I do not believe," Hay said, "that the two-year enlistment would be a good thing. Half the time the army would be composed of 14,000 half-trained recruits. These would produce the short term enlistment also desire that there be no re-enlistment. Few men will enlist if they know there is no future, and the backbone of the army today is the non-commissioned officer." The proposed increase in the army, he explained, could be accomplished through a few years' enlistment as proposed by the bill.

**EXPLAINS PLAN.**  
Hay then turned to a general explanation of the plan to federalize the National Guard. He contended Congress had full constitutional power to do it.

"We provide," he said, "that the National Guard can be mobilized at once in time of war without the delay and confusion of Spanish war days. I do not believe that any question will arise as to the powers of Congress over the militia. But if it does arise, the bill will stand the test before the Supreme Court. The President will have the power to send the guard anywhere he can send the regular army."

**McCUMBER SCORES WILSON.**  
While the House was debating the army bill the final draft of the Senate army bill was favorably reported by Chairman Chamberlain.

Senator McCumber, Republican, of North Dakota, made a speech urging the country not to be swayed by a middle course between war hysteria and utter senselessness. He contended the United States was in less danger of attack than ever before.

"Congress in its growing servility," he said, "has allowed its functions to be usurped by the executive until it has become the tool to convert presidential programs into law. Congress should be the judge of the necessity and of the propriety of changing our historical attitude."

Senator La Follette, Republican, introduced and the Senate adopted without opposition a resolution approving President Wilson's course in sending a punitive expedition to Mexico and securing the Mexican people further that the object of the expedition was merely punitive.

**BATTLESHIP KENTUCKY SAILS.**  
NEW ORLEANS, March 17.—The battleship Kentucky sailed today for Vera Cruz. Captain D. E. Dimmock and the warship carried her full complement of officers, bluejackets and marines.

**AIR HERO WOUNDED.**  
PARIS, March 17.—Sergeant Pilot George Guynemer, of the flying corps, one of the most daring French aviators, has been wounded. Last Sunday he brought down his eighth enemy aeroplane. He is 21 years old.

## Villa Kills and Vanishes

**ARMY BILL IS DEBATED IN HOUSE**

**Little Opposition Is Expected in Review of Measure**

**Congress to Give Ten Hours to Examination and Vote**

WASHINGTON, March 17.—Under a rule limiting general debate to ten hours, the House today began considering the army bill, the most extensive proposal for increasing the military establishment ever laid before it in peace times. It is possible that final vote will be reached tomorrow night.

Forty speakers have asked for time, Republicans and Democrats being equally represented. When the debate began no opponent of the general plan of preparedness had asked to be heard.

Chairman Hay of the military committee and Representative Kahn, ranking Republican member, supported the ten hours equally. So far as is known no committee member will favor reduction of the provisions for the regular army or the National Guard, although several are known to favor a larger standing army.

**CLARK TO SPEAK.**  
Speaker Clark, who will speak in support of the measure, surrendered the chair to Representative Garrett of Tennessee at the beginning of the debate.

Representative Gordon, Democrat, of Ohio, led off for the bill. He had been listed as an anti-preparedness man, but explained today that his opinion was only to a great standing army.

Representative Hay told the House the fact that the committee had reached a unanimous report on the bill indicated the feeling of the country on the vital subject of preparedness.

Fixing 140,000 men as the strength of the army, he said, the committee had gone on what the department officials had testified was the limit of peace-time recruitment. A force of 250,000 regulars would mean compulsory service, to which the country was opposed, and an annual expenditure of \$750,000,000 for the army alone.

"Of course," Hay said, "if it came to war, Congress would go to any extent."

Applause greeted the statement. Representative Kahn interrupted to point out that while the bill provided for a peace strength of 14,000 fighting men, in the immediate of war the President could bring it up to more than 170,000.

"I do not believe," Hay said, "that the two-year enlistment would be a good thing. Half the time the army would be composed of 14,000 half-trained recruits. These would produce the short term enlistment also desire that there be no re-enlistment. Few men will enlist if they know there is no future, and the backbone of the army today is the non-commissioned officer." The proposed increase in the army, he explained, could be accomplished through a few years' enlistment as proposed by the bill.

I do not believe that any question will arise as to the powers of Congress over the militia. But if it does arise, the bill will stand the test before the Supreme Court. ## Carranza Troops Trying to Aid U.S.

**400 Soldiers of Calles Wait for Villa**

DOUGLAS, Ariz., March 17.—Carranza troops of General P. Elias Calles, military governor of Sonora, were making every effort today to cooperate with the soldiers composing the punitive expedition from the United States in the pursuit of Francisco Villa, according to reports received here. Persons arriving last night from the Mayo valley, in Eastern Sonora, said that 400 Calles troops, commanded by Lieutenant Colonel J. M. Aguirre, were strongly intrenching themselves near Bavispe in a position commanding two passes through which Villa bandits would march should they make a sortie against the towns of Bavispe, San Miguel, La Guera and El Tigre.

Several hundred Mexican troops commanded by Lieutenant Colonel Dato Campbell are reported to have passed through Pulpito pass into Chihuahua and were expected to give active support to the United States soldiers. Colonel Campbell is a resident of Douglas. Persons living here say that he has been one of the most active Sonora officials in advancing American sentiment among the Mexican troops and civilians in Sonora.

Intrenchments were being dug today by the forces of General Calles held in reserve at Cabullona, a short distance south of Agua Prieta, but officials here of the de facto government explained that this was to "keep the men occupied and prevent dissatisfaction."

## Prisoner Tells of Villa Plans and More Murders

DOUGLAS, Ariz., March 17.—General P. Elias Calles, military governor of Sonora, reported officially to General Alvaro Obregon, Mexican war minister, late yesterday, that his command had captured a prisoner who revealed Villa's plans and whereabouts in detail. Copies of this report, General Calles said, were forwarded to General Gaviira by him and to the United States army officers at Columbus.

The man was captured at Dos Cabezas and was in the attack on Columbus, Calles said, and added: "He informs me that Villa, after the attack, went directly to the Corralito ranch, where he murdered seven cowboys because they refused to give him horses. He was arrested on the 13th, where he was stopped on the 13th. From there he went direct to Guadalupe."

This is the first prisoner known to have been captured since Villa's raid. He is being held in Agua Prieta.

Three hundred thousand rounds of rifle ammunition, first shipment of a consignment of 700,000 rounds, will be delivered tomorrow to General Calles by the local customs officials. The cartridges are to be used by the detachment of Carranza soldiers led by Colonel Dato Campbell, former commander of the Mexican garrison at Agua Prieta, in aiding United States troops to capture Francisco Villa and his bandits.

The ammunition has been held up here by customs officials since Sunday and was released late yesterday by orders from Washington. This action in adding the de facto troops to obtain the cartridges, it was declared by Yves Leleiver, Mexican consul here, would be of material benefit in assuring many residents of Sonora that the United States intended no aggressive action against the Mexican government.

"It proves," he added, "that the American government has confidence in the intention of the Mexican government to co-operate with the United States soldiers in pursuing the bandits of Villa. Many Mexicans have believed that the ammunition would be held up indefinitely."

## FOURTEEN CARRANZISTAS KILLED IN EXPLOSION

LAREDO, Texas, March 17.—Fourteen Carranza soldiers and ten civilians were killed in an explosion of a carload of grenades and artillery ammunition in the yards of the National Railway lines at Monterrey, Mexico, last Tuesday, according to passengers reaching here today from Monterrey. The news was suppressed by the Carranza authorities because of the tension existing between the United States and Mexico.

Several were injured. All the dead and injured were Mexicans.

Immediately after the explosion a mountainous cloud of smoke spread over the city and the cry "the Americans have arrived" ran through the poorer section. When the smoke cleared away it was found that besides the twenty-four dead, a hundred yards of railroad track had been torn up, window panes shattered and other minor damage done for a radius of a half mile.

The Carranza authorities suppressed publication of the news lest it stir upon classes to rise against the Americans.

## BORDER IS IN STATE OF EXPECTANCY

**Americans Are Arriving From Mexico; Express Anxiety**

**Disquieting Stories Told But No Acts of Violence Cited**

EL PASO, Tex., March 17.—Villistas have burned a railroad bridge 250 feet in length near Corralitos, in the path of the American advance. This information was received here today from sources believed to be reliable.

LAREDO, Tex., March 17.—The postoffice and public baths at Monterrey, Mexico, were destroyed by fire last night, according to private advices reaching here today. The loss, it was said, will run into hundreds of thousands of dollars. All the mail to the postoffice was destroyed. The origin of the fire is unknown, but is believed to be accidental.

DEL RIO, Texas, March 17.—One hundred and fifty Mexicans who organized at the border from Pienza, twenty miles east of here, yesterday, have moved toward Cuernavaca, according to word reaching here today. American guards have been repositioned along that section of the border. A detachment of United States troops was sent to the scene.

EL PASO, Tex., March 17.—Expectations along the border were keyed to its highest pitch today by the general belief that before nightfall an advance guard of the American expeditionary force would have entered the Cuernavaca region of Mexico. American growing uneasiness among the Mexicans, especially in Mexico, evidenced today by reports from various sections that United States citizens were either on their way to the border or were preparing to leave. At virtually every point of entry along the northern border and they frontier Americans arrived today from the interior, but in the majority of instances they said they were leaving Mexico merely as a matter of precaution against the possibility of any overt acts of hostility against them.

**SIGNIFICANT REPORT.**  
The most significant report was received from Durango. An American vice-consul advised that his wife and child had been sent out of the country. This followed closely on the arrival last night on the border of the American expeditionary force with a large number of Americans.

Americans arriving here brought numerous disquieting stories about the attitude of the Mexicans in the interior, especially in Chihuahua, Durango and Coahuila, but invariably they told these stories privately and when asked to make any statement for publication insisted that everything was quiet in the section from which they came. They explained the contradiction by saying that they expected that the Mexicans would do things because more settled and they did not wish to say anything which might arouse resentment of the Mexicans.

An American who arrived today from the city of Chihuahua reported that all was quiet there yesterday.

**CENSORSHIP SEVERE.**  
While the censorship prevented any official news of the whereabouts of the American columns, reports brought by Americans arriving from the interior, coupled with the calculations of men thoroughly familiar with the territory over which the expeditionary force was passing, made it reasonably certain that the United States soldiers must be close to the district where Villa is believed to exercise his greatest influence and have the largest numbers of sympathizers.

With the possibility that actual fighting against the Villistas might begin at any moment, interest was redoubled in every item of intelligence that threw any light on the attitude of the Carranza adherents and more especially on the five detachments of Carranza troops declared by the officials of the de facto government to be operating along Villa.

**CARRANZA CONSUL SILENT.**  
Andres Garcia, the Carranza consul here, who is recognized as the closest man to the first chief on the border, refused to make any definite statement as to what co-operation the American officers might expect from the Mexican authorities. It was suggested to him that the Carranza forces could render valuable aid in supplying guides, aiding in the obtaining of forage and in similar directions.

Runners of disaffection and revolt among the Carranza troops are plentiful here, but all reliable information is to the effect that thus far at least the chief and his lieutenants have maintained strict order. There seems no question that a considerable section of the Mexican people bitterly resent the presence of American troops in their country, but as far as

## HEAVENLY TWINS BILLS CAUSE WORRIES

Mrs. Johanna Kelly today filed with Auditor Boyle of San Francisco the transcript of judgment for \$3340 against Mrs. Mamie E. Hurley, grandmother of Gale Perkins of this city, the sum being advanced, according to the judgment creditor, for the settlement of bills of Gale and Mamie Perkins during their travels along the coast of New York City.

The effect of the action taken today is to create a lien on the monthly salary of \$95 which Mrs. Hurley has been able to obtain from the city school teachers. The couple whose bills are alleged to have caused some embarrassments, are not related, married

## Belgrade Swept by Epidemic of Cholera

LONDON, March 17.—Agiatic cholera has broken out at Belgrade, according to an Athens dispatch to the Exchange Telegraph Company. Fifty cases have been reported daily and thirty deaths have occurred. The people of Belgrade are suffering from a shortage of provisions and sanitary conditions are bad.

## Steamship Kanawha Sinks; Sailors Rescued

NEW YORK, March 17.—News was received in this city late today that the steamship Kanawha, bound from New York for Rio Janeiro by way of Norfolk, Va., sank at sea. A boatload of sailors from the Kanawha was picked up by the steamer Santa Maria.

## AIR HERO WOUNDED.

PARIS, March 17.—Sergeant Pilot George Guynemer, of the flying corps, one of the most daring French aviators, has been wounded. Last Sunday he brought down his eighth enemy aeroplane. He is 21 years old.

# WASHINGTON IS SATISFIED BY REPORTS

WASHINGTON, March 17.—The eyes of administration officials centered today on the desert plains of Northern Mexico, where Brigadier General John J. Pershing is leading American troops in pursuit of Francisco Villa and his band of outlaws. Strict censorship still surrounds the movement of the expedition. A long code message from General Funston has been received at the War Department, but Secretary Baker declared it contained no news of importance and would not make it public.

Unofficial advices from the border said that Villa and his men are far south of the American forces. Army officials did not expect a clash for several days.

Official advices from diplomatic representatives in Mexico reported conditions generally quiet. There were signs of unrest in the Tampico district, however.

Very satisfactory assurances regarding the attitude of the Carranza government toward the entrance of American troops into Mexico were conveyed to the State Department today by Consul Sullivan, who is with General Carranza. He reported no trouble from the Carranza forces was to be expected.

## Chancellor May Follow Admiral

LONDON, March 17.—Dr. Von Bethmann-Hollweg, the imperial chancellor, may follow Admiral Von Tirpitz into retirement, according to a dispatch from Geneva to the Daily Express quoting Berlin reports, which also state that Prince Bernhard von Buelow, the former chancellor, will soon leave Lucerne for Berlin.

PARIS, March 17.—The retirement of Admiral Von Tirpitz is considered in French official circles, according to the Paris newspapers, to be due to the fact that he has opposed the coming out of the German fleet, while Emperor William desires to see it engage the British naval forces. The conclusion is consequently drawn that a change may be looked for in the German naval policy and that the recent appearance of German warships in the North Sea is a sign that preparations are being made for early action by the high sea fleet.

## SUBMARINE WARFARE WILL FOLLOW PLAN

BERLIN, March 17.—German officials repeat the statement that submarine warfare will go on in the future as set by the German memorandum to neutral powers of last month, but that the demands of those who wished to see the indiscriminate torpedoing of "whatever comes in front of the torpedo tubes," to use the expression of those who advocate this policy, will not be fulfilled. This is also the deduction which those acquainted with the situation declare can be drawn from the resignation of Admiral Von Tirpitz, which was foretold a few days ago by the reports of his illness.

## President Wears Green Necktie and Shamrock

WASHINGTON, March 17.—President Wilson celebrated St. Patrick's day today by wearing a green necktie and a sprig of shamrock sent him by John Redmond, the Irish Nationalist leader in the British Parliament.

WOODLAND, March 17.—Worry over personal and business affairs prompted Charles P. Summers, an attorney, at one time justice of the peace in Cacheville township and well-known rancher of Yolo county, to end his life at his home a mile and a half north of Yolo. Summers shot himself with a rifle. His body was found by his wife.

## Second Column Is on Dash to Save Mormons

SAN ANTONIO, Texas, March 17.—For the hour interest has turned from the first expedition in pursuit of Villa to the second column commanded by Colonel George A. Dodd and composed of the Seventh and Tenth Cavalries and one battery of field artillery. A dash will be made by Colonel Dodd's command direct for Colonia Dublan and Colonia Morales, in the Casas Grandes district. In that section 500 Mormon colonists are said to be surrounded by 3000 Villa sympathizers. The forced march will be guided through the Villa lines and brought the news of the plight of their people under slow conditions. This column will reach the Villa outposts tomorrow morning at the latest.

One reason given by army officers for the division of the American invading forces is the difficulty in obtaining an adequate water supply in the deserts of northern Mexico. It is pointed out that a force of 20,000 men relying on the scattered waterholes for water would exhaust the supply, while smaller forces traveling over different routes would lessen the water problem. It is admitted that the supply of water to the troops is one of the chief worries of the army strategists.

## U. S. TROOPS HAVE SEEN NO BANDITS

SAN ANTONIO, March 17.—The American expeditionary force has had no casualties and has had no clashes with Villa forces to date, according to reports received today at Fort Sam Houston. There has been no instance of sniping reported.

Brigadier General Pershing's dispatches to the southern department headquarters confirm reports that Mormon colonists from Colonia Dublan and Colonia Morales are acting as scouts for the expedition. Absolute secrecy is maintained here as to the distance the American troops have penetrated into Mexican territory. Colonel Dodd, commanding the Seventh and Tenth Cavalry, is in wireless communication with General Pershing.

Varying reports have been received at Fort Sam Houston regarding the attitude of Mexicans toward the expeditionary force.

## AMERICAN MINES SUSPEND OPERATIONS

NOGALES, Ariz., March 17.—Reports were received here from apparently authentic sources that numerous American mining properties in the Hermosillo-Guaymas district of Sonora are suspending operations temporarily through fear of disaffection among the natives as a result of the American pursuit of Villa. The largest of these was said to be the Minas Prietas, of the Creston Colorado Company, north of Guaymas, which has employed about 1500 men.

## NIGHT MARCHES ARE PART OF PURSUIT PLAN

SAN ANTONIO, Texas, March 17.—Night marches probably will be made by General John J. Pershing's expeditionary forces in their search for Francisco Villa, it was indicated today at Fort Sam Houston. Night marches would help to modify Villa as to the movements of the American columns and would be easy of accomplishment, it is said, because there is sufficient light for the purpose. Also they would keep the men and horses fresher. Days could be used for horse-drawn transport.

## Swedish-Americans to Hold Folk Festival

Plans for the great Swedish spring festival and folk gathering to be held Sunday, March 26, were formulated at a meeting held last night in Swedish-American hall. The fête will be carried out after the manner of the great spring fiestas held each year in the north counties. Quaint Swedish costumes will be portrayed, and folk games and dances will be participated in by youths and girls in national costumes.

Sagas and national hymns and anthems, both of Sweden and America, will be sung by the members of the Svenska Chorus of Oakland, under the direction of Axel Philstrom.

Games, races and other amusements will play a principal part in the celebration and dancing in the open-air pavilion will continue throughout the afternoon and evening.

Among those working for the success of the event are H. H. C. T. Peterson, Hartwig Swanson, Magnus Freeman, Gustave Anderson, A. W. Gustafson and Ernest Johnson.

WIFE FINDS DEAD BODY.

WOODLAND, March 17.—Worry over personal and business affairs prompted Charles P. Summers, an attorney, at one time justice of the peace in Cacheville township and well-known rancher of Yolo county, to end his life at his home a mile and a half north of Yolo. Summers shot himself with a rifle. His body was found by his wife.

## BORDER TOWNS IN EXPECTANT STATE

(Continued From Page 1)

It is known they have shown their hostility by no overt act.

The twelfth Mexican suspected of Villista activities was arrested here last night and placed with the eleven other former generals and "cabinet ministers" of Villa in jail. Villista maneuvers in El Paso seem to be mainly concerned with the dissemination of sensational reports reflecting upon the Carranzistas and intended to provoke ill feeling between them and the Americans.

## AMERICAN TELLS OF VILLA OUTRAGE

EL PASO, Texas, March 17.—Sam Hess, an American employed on Corralitos ranch, in Chihuahua, reached here today with a story of halfbreath escape from Villa bandits after he had watched them murder five Mexicans and carry off a girl as their

prisoner. Hess, who has only one leg, was looking after some horses and mules in the yard of the ranch last Sunday when the Villistas appeared. They immediately shot down one of the ranchers. Hess hid under a mound of hay in a barn and from his cover saw the four other members of the ranch family shot down as they tried to flee from the house. The bandits then collected all the horses on the place and having secured their girl prisoner rode away.

For three days Hess wandered about the country trying to find some way of reaching the border. He finally was able to flag the Madera Lumber Company's special train and arrived safely in Juarez.

## EIGHTY-SEVEN AMERICANS ESCAPE FROM TORREON

LAREDO, Texas, March 17.—Traveling the entire distance in box cars, Consul C. A. Williams and eighty-six other Americans arrived here late yesterday from Torreon, Mex., having left the Mexican city, they said, because they were convinced it was the best thing to do. Their departure, they said, was not caused by any overt act on the part of the Mexicans or failure on the part of the de facto government officials to offer protection. Eleven Americans joined the party at Monterey. There were a number of American

women in the party, including Mrs. Williams. Consul Williams said he would remain at Laredo or near the Mexican border pending instructions from the state department. He refused to discuss his leaving Mexico.

Other members of the party said a few unmarried American men remained in Torreon, but that they had voted to leave because Torreon was considered to be in Villa territory and therefore unsafe for Americans. They believed the Carranza garrison was strong enough to hold the city of Torreon against a Villa attack.

Good conditions at Torreon also, it was said, influenced the decision to leave as the city was depending almost entirely upon supplies from the United States. Durango City, it was stated by several of the American refugees, is cut off entirely from all manner of communication with the outside. There are said to be at least twenty Americans there. The American colony feared Torreon might be similarly isolated by Villa adherents.

## MEXICAN DIPLOMAT VILLA VICTIM

EL PASO, Texas, March 17.—The body of a Mexican found near the border at Columbus, N. M., yesterday was identified as J. Pereyra, personal representative of the Mexican consul

## ONE-CENT SUGAR TARIFF RETAINED

WASHINGTON, March 17.—With thirteen Democrats and one Socialist member opposing, the House yesterday by a vote of 216 to 14, passed the administration bill to retain the present tariff of 1 cent a pound on sugar, instead of permitting the free clause of the Underwood-Simmons tariff act to go into effect on May 1. The measure now goes to the Senate.

Voting against the bill were Bailey, Buchanan, Sabath, McAndrews, Tamm, Callaway, Crosser, Gordon, Hilliard, Howard, Johnson, Thompson, Van Dyke and London.

ate in El Paso. Pereyra had gone to Columbus prior to Villa's raid with instructions to watch Villa's movements. At the consulate here belief was expressed that Villa's men had captured and killed Pereyra.

## The Importance of Healthy Kidneys

In the removal of waste material from the body, the kidneys are called upon to perform a very important duty. The failure of these marvelous and delicately constructed organs to properly do their work means retention in the system of poisonous matter. This poisons the system, and if permitted to remain results in severe backache, headache, torpid liver, constipation, and eventually Bright's disease.

About 40 years ago Warner's Safe Kidney and Liver Remedy, a combination of herbs and other healthful ingredients was discovered; its value in strengthening the kidneys and liver was at once appreciated. And today it stands as one of the standard remedies in the treatment of diseases of the kidneys and liver. Many persons suffer from diseases of the kidneys unknowingly. The use of Warner's Safe Kidney and Liver Remedy will invariably improve your health, and make you feel that life is really worth the living.

It is sold by all druggists in 50c and \$1.00 sizes. A sample free if you write. Warner's Safe Remedies Co., Dept. 363, Rochester, N. Y.

## Bluebird Bureau

Department of Good-Fellowship

Undoubtedly our readers remember "Bud," the boy for whom the Blue Bird Bureau found a very good home in the country, and who, just at the time that he was ready to go, was taken seriously ill and had to spend several weeks in the hospital. Today we received the following letter from him:

"Dear Friends: I arrived safely last Sunday, and I like the place fine. I think this is a splendid country and every one is so friendly. It seems good to be back in the country. I used to think it would be grand to live in the city, but I have found out that it is a great deal better in the country. I feel all right now. I feel better in the country than in the city, because there is plenty of fresh air and more opportunity to exercise. I thank you many times as I can say for what you have done for me. You have taken a lot of worry off my brothers, and I am sure they appreciate your kindness as much as I do. When Mr. W. comes to see you, tell him I like the place fine and am perfectly happy."

The Blue Bird Bureau is very anxious to make an experiment in truck gardening. What it needs for that is an enclosed lot in the vicinity of the TRIBUNE office, between Lake Merritt, the estuary and Washington street. It has already acquired the services of a man to make the experiment; also tools and fertilizer. The lot must of necessity not be expected to be sold for the next six months. However, the bureau does not in any way mean to hamper the sale; in fact, it is more likely to promote it, as the lot will be made to look more attractive and the ground will be materially improved. We especially want to call this to the attention of real estate dealers. We don't doubt that among them we shall find a Good Fellow who will offer us the use of a large, enclosed lot. If the experiment should prove to be a success, next year hundreds of other lots in the east bay cities may be converted into truck gardens while awaiting to be sold, and thus will make hundreds of families self-supporting who otherwise would have to appeal to the county for assistance, thereby increasing taxation, or face starvation.

We are still looking for schoolgirls who would like to render some kitchen and household services before and after school hours in exchange for room and board. These are fine opportunities for ambitious girls who have no parents or other near relatives living in the city with whom they can stay while finishing their course at the high school or attending business college.

We are much pleased to say that a Good Fellow has come to the rescue of the little crippled girl who needs

a pair of new shoes. This morning a check for \$3 was received by the Blue Bird Bureau to be used for the purchase of the shoes, and we know that she and her mother will be very happy.

CORRESPONDENCE  
 Campbell—You can borrow the book from the public library.  
 Everett—When can we call for the coal oil stove?

The Blue Bird Bureau has been overwhelmed with requests for the fox terrier described and offered in these columns. The TRIBUNE had

hardly been received at the homes when someone rang up this bureau and we received the first request. Dozens of other requests have been coming in ever since. We hope and trust that the dog has found a good home and a wise master.

The Blue Bird Bureau is happy to say that many homeless boys who called upon us and asked our assistance in the finding of a home have found what they desired. Most of them have been placed on farms. One of these youths, who, on account of domestic troubles, was compelled to leave his home with strange people, is very happy in having been placed on a ranch where he is treated with kindness and looked upon as a member of the family.

Less fortunate than the fox terrier is the one-year-old cat, still waiting for someone to take her and give her a place near the hearthstone, in a warm corner, where she may drowse lazily and purr to her heart's content, or sit on the windowsill, with half-closed eyes directed towards the rays of the sun and delight in its heat, thus adding to the coziness of the home and giving it a tone of happy peacefulness.

### Suspect Had Pockets Filled With Mex. Money

SAN FRANCISCO, March 17.—Ray Morrison, arrested for violation of the white slave laws this morning in connection with the taking into custody of Dot Farrell, a woman of the tenderloin, had in his possession several hundred dollars in Mexican currency, leading to the belief that he may possibly have a connection with the ring which has been endeavoring to dispose of greenbacks of this character in this country. A careful inquiry and members of the upper office.

### AVIATORS BURNED IN AIR FLIGHT

Experiment With Hydroaeroplane Sends Two to the Hospital.

LOS ANGELES, March 17.—Al Smith, an aviator, and his mechanic, Roy Blair, were painfully burned and badly bruised today when a hydroaeroplane in which they were making a test flight caught fire in the air, forcing them to make a hasty landing in a field instead of a stough, near here, where they were making their experiments. Smith was knocked unconscious and Blair was shaken up. Both men were removed to a local hospital. They will recover. The fuselage of the machine caught fire from the flare back when the hydroaeroplane was soaring at a height of about 100 feet.

## United States Balanced Tires

### At Last—the 'Balanced' Tire

The greatest forward step ever made in pneumatic tires

On January 8th, in the Saturday Evening Post, we announced that at last we had made pneumatic rubber tires more like other dependable articles of merchandise.

Stop and analyze this statement—"more like other dependable articles of merchandise." Many months ago we finally worked out and began producing the completely "balanced" pneumatic tire—the heretofore unattainable goal of every tire manufacturer.

To be 100 per cent. efficient, a tire must be absolutely "balanced"—that is, the rubber tread and the fabric carcass of the tire must give equal wear.

#### 'Balance' the tire maker's goal

To have perfect 'balance' the rubber tread must have enough resiliency to absorb road shocks that tend to disintegrate the fabric, and still must have the toughness to give long wear. Too much toughness reduces resiliency; too much resiliency sacrifices toughness. Full, complete tire efficiency demands a 50-50 'balance' of the rubber tread and the fabric carcass—neither may be stronger nor weaker than the other.

#### This is the goal we have reached

By producing this complete 'balance' between resiliency and toughness in the tread, and between fabric and rubber in the carcass, we have secured 100 per cent. efficiency in United States Individualized Tires, or absolute 'balance'. Since September, sales have increased steadily month by month up to the recent highest increase of 354 per cent.—this tells the story.

## Duffy's Relieved Stomach Trouble and Indigestion

Geo. M. MANGON

A newspaper advertisement was the means of acquainting Mr. Mangon with the medicinal virtues of Duffy's Pure Malt Whiskey. He says:

## P. P. I. E. and State May Resort to Suit

The courts may be called upon to settle the controversy over the amount of money to be paid the state by the exhibition board for the preservation of the California building as a normal school, according to a letter which has been forwarded to the state commission by President C. C. Moore.

The exhibition directors want to give the state five-sixteenths of the proceeds of the fair. The state is asking for five-eighths, which, if paid, would give the state \$12,000 additional on each \$1,000,000 of exhibition proceeds distributed. Various stipulations are asked of the state in the acceptance of the building for a normal school. These have not yet been agreed to.

Moore asks that these stipulations be agreed to, and the question of the funds left to a later date for settlement. No suit will be brought by the exhibition directors to settle the dispute until the state commission makes especial request that this action be taken.

## PERLET MUSIC IS PLAYED AS TRIBUTE

Big Memorial Benefit Is Heard by San Francisco Audience.

One hundred musicians, under the baton of Paul Steindorff, today in San Francisco held a musical memorial service in memory of the late Herman Perlet, Oakland composer and director. Works of the dead musician were played, together with numbers he had often conducted. Nikolai Sokoloff conducted several numbers by the big orchestra also. Large crowds packed Dreamland rink to hear the novel tribute to the late musician.

Modesta Mortensen, violinist, contributed also to the program, which was rendered as a benefit to the family of the musician as well as a tribute to his memory. One of the striking features was the rendition of Perlet's music from the Bohemian Grove play. The program was as follows:

Introduction to "The Fall of Ug"—Perlet (Bohemian Grove play, 1913)

Orchestra.

Adagio from "Quintet"—Perlet (Arthur Fickensler, Herman Mar-tinez, Sidney Pollok, Nathan Firestone, Herbert Riley, Taranella, dedicated to Steindorff).

Orchestra.

Aria, "Il est bon, il est doux"—Massenet (Mme. Laure de Vilmar).

Orchestra.

Overture, "Die Fieschitz"—Weber (Nikolai Sokoloff conducting).

Air on strings—Bach.

"Les Adieux"—Mortensen and Mortensen.

"Hungarian Fantasia"—Perlet (Orchestra).

**TONICS TO DANCE.**  
ALAMEDA, March 17.—The tonic club of this city is to hold a St. Patrick's dance tomorrow evening in Native Sons' hall on Park street, near Central avenue. Vaudeville numbers will intersperse the dancing.

## SANTA FE MEN IN CLOSING SESSION

Convention Divides Into Sections for Special Discussion.

Final details of the big meeting of the Santa Fe Loss and Damage Convention were wound up today at the Hotel Oakland, where the closing discussions were held. Tomorrow will be the last day of the visit of the Santa Fe officials to California. They will visit Mount Tamalpais and will view the points of interest about the bay. The eastern representatives will take trains for their different stations during the evening.

In order to hurry the work, the last parts of the session were divided into sectional meetings. One dealt with traffic problems and another with safety devices and safety expedients. Isaiah Hale of Topeka was the head of the "Safety First" discussion, and car repairs as an element of the safety work were discussed at length.

The second of the sections was on traffic in general, and was headed by H. P. Anewalk, general agent of the road at Los Angeles. Increase in business, traffic disabilities, and the general outlook for the coming year were gone into. Yesterday afternoon the delegates were the guests of the Chamber of Commerce on a sightseeing trip about the bay region.

**OPPOSE FRUIT EMBARGO.**  
MARTINEZ, March 17.—E. B. Anderson, president, and Theodore Hook, secretary of the Contra Costa Fruit Growers' Association, announced yesterday that at a meeting at Walnut Creek the association adopted resolutions to call upon all possible assistance to prevent the imposition by England of an embargo upon California fruits.

## GARIS' BEDTIME STORY

HOME & CADY

"Well, Uncle Wiggly, Longears, you are getting very stylish, indeed. It seems," spoke Nurse Jane Fussy Wuzzy, the muskrat lady housekeeper, after the postman bird had paid a visit to the hollow stump bungalow one day, and had left a letter. "Very stylish. Look here!"

"Why, what's the matter?" asked the bunny uncle. "Do you call it stylish just to be a letter?" "That is, yes, and so do I. This is very likely from Grandpa Goosey Gander, asking you to come over and play checkers with him."

"Indeed, it is nothing of the sort!" exclaimed the muskrat lady. "That is just a letter from the King, who is in the palace. This is a very stylish letter, indeed. It comes from the King's palace, and you can see, by the royal stamp on it, it is gold and red and blue and green. Wonder what it can be?"

"I'll open it and find out; then I'll tell you," said Uncle Wiggly. "I'll guess it's from the gold and silver palaces of the King, who was in the kitchen and the money while the Queen was in the parlor eating bread and honey. The mail was in the garden and the letter was in the box along came a blackbird and nipped at her nose."

"He helped the King and Queen and the maid, you know, and perhaps they are in more trouble, and need more help."

"But when the bunny uncle opened the letter he found it was not from that King but another—this letter was from Old King Cole."

"Read me the letter," said Nurse Jane.

So Uncle Wiggly read:  
"Old King Cole is a merry old soul,  
A merry old soul is he.  
He called for his pipe, he called for his bowl,  
And he called for his fiddlers three."

"Every fiddler had a fine fiddle,  
A very fine fiddle had he,  
And Uncle Wiggly is asked to come,  
To list to the music with me."

At the bottom of the letter was Old King Cole's name. "What's it?" "Well, I don't understand. What's it?"

"Don't you see?" cried Nurse Jane. "This is a royal invitation from Old King Cole for you to come to his palace, and listen to his fiddlers three making music on their fine fiddles. You must get ready and go. Put on your best suit and look nice."

"Must I really go?" asked Uncle Wiggly. "I had much rather stay here with the King and Queen and the maid at all well. Must go?"

"Of course you must go!" Nurse Jane said. "Whenever a King invites you, why, you have to go. If you must stand on your head, I'll help you get ready."

"Very well," Uncle Wiggly said. "But I had much rather stay home with my slippers on, eating carrot sandwiches. I know it will be too late and some of me up at the King's palace. I'll be sure to get my napkin on backward, or tickle some one with the wrong fork. But if I must go I must go. I wonder how he came to invite me."

"Oh, I guess he heard how kind you were to the King's mouse, was in the kitchen, counting out his money, and how you dug it up for him. When he rolled under the floor," said Nurse Jane.

So she helped Uncle Wiggly get ready, shaving the back of his neck for him, where he couldn't himself reach with his razor. And she tied his hair for him, and saw that he was all scrumptious like, and proper.

Finally the gentleman got off for the palace of the King. He was about half way there when he heard some little squeaking voices down beside the woodland path, and there he saw Jollie and Jollie Longtail, the mouse children, and their cousin Squeaky-Eekie.

"Where are you going, Uncle Wiggly?" asked Jollie, the boy mouse. "To Old King Cole's palace to hear his fiddle music," answered Uncle Wiggly.

"Oh, do please take us with you!" begged Jollie. "We just love fiddle music and we can't ever go to hear any."

"Why?" asked the bunny uncle. "Because," explained Squeaky-Eekie, "the little cousin mouse, was in the kitchen, counting out his money, and how you dug it up for him. When he rolled under the floor," said Nurse Jane.

"Or course not," answered Uncle Wiggly. "I never thought of that. Cats and mice don't go well together. But how can I take you to King Cole? He may not like me."

"Put us in your pockets," said Jollie. "We are not very big, and we can easily hide when you go to his palace. No one will see us in your pockets."

Well, Uncle Wiggly put them in—Jollie, Jollie and Squeaky-Eekie Longtail. But the rabbit gentleman was not to let the King might not like it. However:

"Glad to see you, Uncle Wiggly!" cried Old King Cole, as the bunny uncle came in the grand palace. "Make yourself right at home!" and the King clapped his hands. Then some one sang:

"Old King Cole is a merry old soul,  
A merry old soul is he.  
He called for his pipe, he called for his bowl,  
And he called for his fiddlers three."

In came the fiddlers, playing twiddle-dee-dee, making nice music, until, at last once:

"Snap! Snap! Snap!" went something. "Snap!"

"My goodness me, snakes alive and some orange!" cried Uncle Wiggly.

"Our fiddle strings have broken!" cried one of the fiddlers. "Now we can make no more music until we have new strings."

"Oh, dear!" cried the King. "That's too bad. I must have music from my fiddlers three, or from some one, or Mother Goose won't like it. How can I get some new fiddle music for Uncle Wiggly? How can I?"

Just then Jollie Longtail poked his head out from Uncle Wiggly's pocket.

"If you please, Old King Cole," he said, "Jollie, Squeaky-Eekie and I will make music for you if you like."

"Oh, like that, the King. "Make music, if you please!"

So the mice, who have very squeaky

## MAY ADVERTISE FOR SOLDIERS IN U. S.

NEW YORK, March 17.—An advertising campaign to stimulate enlistments in the army in this part of the country was considered at a conference here yesterday of officers in charge of recruiting in the metropolitan district. The officers say they hope through advertising to attract those in the city who may be inclined to army life, as well as to make known to the youth of the small towns and countryside what opportunities for service and advancement the army affords.

"Rose Culture" will be the subject of a lecture by Prof. R. J. Stevens of the University of California before a meeting of the Alameda County Floral Society in the Oakland Museum Monday evening, March 20, at 8 o'clock. The public has been invited to attend. Wilbur Walker, member of the Alameda County Exposition Commission and secretary of the Merchants' Exchange, left yesterday for San Diego to represent Alameda county at the opening of the Panama-California International Exposition. The exhibit of Alameda county is one of the finest at the exposition and occupies all the space which last year's exposition was used for the exhibits of Alameda and Santa Clara counties. Alameda county, in addition to the display at the fair, has two exhibits in Los Angeles.

Walker will be gone a week.

## Capwells Store News for Women Written by a Woman

### Saturday the Last of the Formal Show Days

Don't let this last day pass without seeing the new things in collective display.

There is a reason for CAPWELLS Fashion leadership.

Nothing keeps on happening in this country by chance—accidental successes sooner or later subside; the steady and continued growth of the CAPWELL business for all these years is the result of our persistent effort to get our customers the kind of things they want at the time they want them. In all our purchasing we demand style and value at the lowest prices at which they may be obtained.

### This Style Show

is more than an opening—more than a Fashion Parade—it is an exposition of the wonderful resources of CAPWELLS as a style center—a demonstration of CAPWELL leadership in

### Ready-to-Wear Garments, Millinery and Every Line of Spring Wearables

Come without fail tomorrow for a sight of these world gathered stocks.

### New Silk Suits Came Last Night to join the Fashion Parade today

We expected them sooner but they were delayed in transit. Suits that are smart and new, ringing true to style notes. Suits tailored with such precision and skill that they may easily be awarded the laurels. Suits of character that are accurate reproductions of imported models. The short Coat with wide flare below the waistline, or a peplum that is either pleated or circular are prominent features. The collars are often high at the back, gradually narrowing toward the front and metallic thread or colored embroidery is attractively used on some of the smarter models. Combination effects of taffeta, Georgette crepe and serges have the call. Prices begin at \$25 and go by easy stages to \$110.

### Hundreds of New Garments for Children in the Fashion Show

White Dresses and colored Dresses—the new shipments came out of their boxes fast last week, and, many as there were, there will hardly be enough for the small tots who want them.

The colored dresses are of the prettiest fine chambrays, ginghams and voiles; there's one blue pin check that would make a child look as sweet as a for-get-me-not; smocked or made up with dimity guimpes, or in high and long-waisted and straight styles. Sizes from 2 to 14 years. Prices—75c to \$6.50.

The White Dresses are lawn, nainsook, dimity, voile and swiss; simple slips, long-waisted dresses, Russian Dresses, French Dresses. Sizes are six months to two years. Prices—65c to \$10.50.

### Fashions for Dressing Up the Home

Thousands of yards of Cretomes, Linens and Drapery novelty fabrics for windows, slip covers, furniture upholstery and all other Spring home dressing requirements are now being shown in the big Third Floor Drapery Section.

Foreign copies and domestic fabrics are shown in a choice of dozens of patterns and color schemes.

It is a wonderfully fine stock to have for our customers in view of present conditions in the mills at home and abroad, and the prices we ask are very reasonable.

Our entire home decorating department is very well equipped, indeed, to do good work this Spring.

*How we measure the  
flavor of the owl*

ONE thing above all others can spoil a good cigar. That is good tobacco, badly cured.

Curing is a matter of time—and time alone. To bring out the full mellowness of leaf for the OWL we cure the tobacco an average of eighteen months.

This means we must carry eighteen months' supply of reserve tobacco on hand, so that every leaf may be properly cured before we use it.

The value of this reserve stock at all times exceeds a million dollars. This is quite a large non-interest-bearing investment, isn't it?

But think what this million dollar reserve supply of leaf means to the smoker.

It means he gets a mild, full-flavored smoke from perfectly cured leaves when he buys the OWL.

It means that every OWL is mellow. This million dollar reserve supply insures uniformly good flavor.

We might almost call the OWL the "Million Dollar" Cigar. Perhaps we will.

## Didn't Expect to Live

In a letter to the Plinus laboratories, Mrs. G. O. Walker of Walker, Lane County, Oregon, writes:

"I have been taking Fruita and it has been a great relief. I suffered so with gall-stones my family and friends didn't expect me to live."

Fruita is a powerful intestinal lubricant and softens the hardened particles that cause so much suffering, expelling the congested waste in an easy, natural manner, to the sufferer's great relief. A single dose is usually sufficient to clearly indicate its efficacy. To build up and restore the weakened, run-down system, Traxo is highly recommended as a tonic-alternative that acts on the liver and kidneys, stimulates the flow of gastric juices to aid digestion and removes bile from the general circulation.

Fruita and Traxo are prepared in the Plinus laboratories at Monticello, Ill., and arrangements have been made to supply them through representative druggists.

A booklet of special interest to sufferers from stomach trouble can be obtained by writing to the Plinus laboratories at Monticello, Illinois.

## Loses Home and Clothes in Day

Nicholas Stravara has no home and no clothes. He had both when he left his room at 723 Washington street yesterday. But when he returned last night he found that his landlord had moved during the day. He had taken the furniture, the carpets and all of his other belongings, leaving Stravara's clothes in the room. A provision found the wearing apparel and made off with it. A diamond brooch valued at \$125 was stolen from Mrs. Mildred Rabinowitz, 77 Echo avenue, at Twelfth and Jefferson streets today.

## Y. W. C. A. TO HOLD VESPERS.

The Young Women's Christian Association will hold the usual vesper service next Sunday afternoon at 5:30 o'clock, when Miss Alice Pollard will give a reading of "The Happy Prince." The service is open to all interested young women.

## Held to Answer on Arson Charge

August Mundt and his wife, Mary, were held to answer to the Superior Court on a charge of attempting to defraud a fire insurance company by Police Judge Mortimer Smith today. Mundt was fixed at \$5000 in each case.

The Mundts were arrested after making out a fire loss claim of \$1857. The police claim that the destroyed property was worth less than \$200.

## LECTURE AT EMERSON SCHOOL.

Current events will be discussed tonight at the Emerson School, Forty-ninth and Shafter streets, when Arthur I. Street of Berkeley will deliver another of his lectures on "In Line with the Hour" under the auspices of the Board of Education. The lecture will be illustrated with lantern slides.

## MOSBACHER'S CLOAK AND SUIT HOUSE

517-519 Fourteenth Street

## So Many Pretty Suits, Dresses, Coats and Waists at "Mosbacher's"

—that many women scarcely know which to select. It is an interesting fact that the most desirable merchandise for Spring is the scarcest. A great scarcity of dye materials and sky-high prices for wool and silk materials have combined to make the Ready-to-Wear problem a difficult one for many stores to solve.

The store of "Values," however, has surmounted these obstacles, and there is now on view a selection of Ready-to-Wear garments that does credit to "Mosbacher's Style" and "Mosbacher's Value."

We invite your inspection of the most varied and attractive selection of Spring garments ever displayed by Oakland's largest specialty store for Women's Outer Garments.

## MISS THOMAS WILL STAND BY FIANCE

### Dr. Caldwell and Actress Prepare for Coming Trial.

While Dr. George W. Caldwell is preparing to put up a legal fight against the efforts of Miss Rose Allard, 26 years of age, to obtain a one-third share of his large property holdings, Miss Allard, who yesterday filed suit against him, says that she is preparing to tell her story also.

"We both told fairy tales," said the pretty former actress. "I told him little fairy stories and he incorporated them in an edition of poems that he is about to have published."

"I guess he told me tales, too. He promised that we would be married and gave me a large diamond ring. Then he destroyed the will in which he bequeathed me a share in his estate."

Miss Mary E. Thomas, whose engagement to Dr. Caldwell was announced recently, bringing about the rupture between the doctor and Miss Allard, remains silent over the controversy, but says that she will stand by Dr. Caldwell.

Miss Thomas, who is a daughter of Captain W. R. Thomas, former mayor of Oakland and prominent G. A. R. leader, had a former romance which ended in a divorce six years ago.

In 1893 Miss Thomas was married to Joseph Howard Badger, son of a wealthy Stockton hotel proprietor. In 1909 they separated, Badger going to Bakerfield. Mrs. Badger sued for divorce and was granted an interlocutory decree in January, 1910. At that time she gave her age as thirty-four. She obtained her final decree in April, 1911. She was allowed to resume her maiden name.

## Wife Deserter, Father of Six, Faces Trial

ALAMEDA, March 17.—George W. Minifie, who admitted in Judge L. R. Weinmann's Court this morning that he had deserted his wife and five small children, going to live with a woman in Alameda, and living under an assumed name, was held to the Superior Court on a charge of failure to provide for his family.

Minifie, who is 31 years of age, left his home on Hurlingham avenue several months ago. His wife and children were destitute and in need of charity. John Norris, who refused to give his address, was convicted of being a "peeping Tom" at Washington Park and was kept in the county jail.

Honey Lopez, charged with being a common drunkard, will be held in the city jail until March 21, when he will go to Alameda on a sailing ship. He has signed for the trip. If he does not go he will be sentenced to jail.

## Boy Hurt When Autos Collide

One boy was injured and two automobiles badly damaged in a motor car accident at Thirty-fifth avenue and the Fourth boulevard last night. William Rodgers, 1917 Crosby avenue, the injured boy, received cuts and abrasions about the head, but was not seriously hurt.

The accident occurred when M. C. Kittredge, 1370 Washington street, drove his car into the curb to avoid colliding with an automobile coming from the opposite direction and driving on the wrong side of the street. F. M. Maestri, who was driving a car in the same direction as Kittredge, crashed into the rear of the latter's machine, causing it to swerve and strike young Rodgers. The injured boy was removed to his home.

## STOMACH TROUBLE CURED BY PLANT JUICE

Remarkable Statement Made by Milwaukee Lady, Who Claims She Is Feeling Best in Years.

Statistics show that stomach trouble is far more prevalent than the average individual would suppose. It is simply self-destruction to let this trouble sap your comfort and health away. It wears its victim down until he grows weaker as the disease gathers force, nourishing itself on the patient's very life blood. It is more than probable that there is one member in every family who is afflicted in this way. Plant Juice, the new system tonic, has no peer in all cases of stomach, liver, kidney trouble and rheumatism, as is attested by the number of people throughout the United States who speak of it in glowing terms. Recently the signed statement of Mrs. S. E. Daly, who resides at No. 3316 Chestnut street, and is a popular and well-known resident of Milwaukee, Wis., was received. She said:

"For years I was troubled with my stomach, gas, indigestion and dyspepsia. While under the doctor's care, I read about your Plant Juice in the daily papers and decided to try it. My husband did not want me to take it, but I did so, and the first tablespoonful gave me immediate relief, and I took three bottles; was out of it for a week and want some more now, as it did me so much good. I discharged my doctor. I had no further use for him, as I am now entirely cured—a well woman—and give all praise for my present good health to Plant Juice."

Plant Juice is sold in all Owl Drug Stores.—Advertisement.

## The Proof

**D**ON'T accept claims or opinions. Every man selling an automobile will tell you his car can be run at low cost.

He'll tell you this because he knows and you know that gasoline, oil and tires are costing more and more all the time. He knows and you should know that the operating cost of any automobile during five years' time is worth your careful consideration.

We don't give you any guesswork. We tell you what we know. We state the facts and figures—proved and verified figures. Here they are:

Average miles per day (44 days).....	500.6
Miles per gallon of gasoline.....	21.88

Most Maxwell owners get even better results than these but we are just giving the actual figures set when the Maxwell stock touring car broke the World's Motor Non-Stop Record.

## Jingle of Coins Prevents Robbery

The jingle of coin on the sidewalk at Embarcadero and Washington streets, San Francisco, at 2:30 this morning, was responsible for saving a portion of the worldly wealth of John Gallagher, a resident of Oakland, who was struggling in the grasp of a robber. Patrolman Thomas Flood, trying doors along the Embarcadero, heard the jingle, hurried around the corner and arrested William Sandon in the act of rummaging the pockets of the man. In the struggle between the two men Gallagher's purse containing \$25 had fallen to the sidewalk, spilling the contents. Sandon was charged with robbery.

Indigestion and Constipation are among the most common causes of ill health. A man never feels so completely used up as when his stomach goes back on him. For a quick relief may be had by taking Chamberlain's Tablets, and in most cases this relief becomes permanent. Do not give up but take Chamberlain's Tablets, eat well and stay well and many others have done. For sale by Osgood Bros.

# MAYBECK PLEADS FOR ZONE PLAN

New Ordinance Discussed at a  
Session of Berkeley  
City Club

**BREMENLEY**, March 11.—B. R. Maybuck, Pacific exposition architect and designer of the lagoon and Palace of Fine Arts, made an urgent plea for support of the new zone ordinance as a measure of far-sighted city planning at the public meeting to discuss the ordinance held under the auspices of the Chamber of Commerce at the Hotel Statueck last evening. He said: "It is economy for us to look ahead twenty-five years and to remember that we are building a city for a thousand years to come. The city's business is making on the Telegraph avenue residence section presents the problem for the future. The ordinance proposed is the best interests of the city."

Maybuck was one of a number of speakers who took part in the scheduled talks had been made. B. D. Greene, author of the ordinance and member of the city council, presided and opened the meeting by explaining the provisions of the ordinance and the reasons why by which districts were to be created.

## PAY YOUR BILLS TOMORROW, SIR, AND BUY A NEW SUIT ON CREDIT!

If your best clothes are shabby, you'll be tempted, when you get your salary check or pay envelope tomorrow, to take a good, big share of it to buy a new suit. That's likely to crowd you for funds to settle your "first-of-the-month" obligations.

Here's a better way: Reserve a very small sum for the first payment on your new clothes, get fitted at CHERRY'S, and pay off the balance ON INSTALLMENTS.

Scores of other men will be doing this tomorrow—you'd better "follow suit."

Go up to CHERRY'S big store and see how the place strikes you. It's a safe bet that the suits you'll see there at \$20 and \$25 will please you, for they're the classiest and finest quality you'll find in town. Handsome varieties, both of English cuts and smart pinch-back Norfolks.

And the terms will appeal to you most of all. A few dollars weekly or larger installments by the month—that's CHERRY'S famous credit system. Do you wonder it's popular with hundreds of men?

If tomorrow will be your first visit to CHERRY'S, note the following addresses—528 18th street, between Washington and Clay streets. This store carries men's clothing exclusively, and just across the street at 516 13th, is the ladies' store, CHERRY'S have two stores in San Francisco, one at 1009 Market street and the other at 2100 Mission. All stores stay open until 10 o'clock Saturday evening. The San Francisco stores carry both men's and ladies' clothing. Other stores—Portland, Los Angeles and Sacramento.—Advertisement.

## OUCH! RUB BACKACHE, STIFFNESS, LUMBAGO

Rub Pain From Back With  
Small Trial Bottle of Old  
"St. Jacob's Oil."

Back hurt you? Can't straighten up without feeling sudden pains, sharp aches and twinges? Now listen! That's lumbago, sciatica or maybe from a strain, and you'll get relief the moment you rub your back with soothing, penetrating "St. Jacob's Oil." Nothing else takes out soreness, lameness and stiffness so quickly. You simply rub it on your back and out comes the pain. It is harmless and doesn't burn the skin.

Lumber up! Don't suffer! Get a small trial bottle of old, honest "St. Jacob's Oil" from any drug store, and after using it just once, you'll forget that you ever had backache, lumbago or sciatica, because "St. Jacob's Oil" never hurts or causes any more misery. It never disappoints and has been recommended for 60 years.—Advertisement.

### If Too Fat Get

More Fresh Air  
BE MODERATE IN YOUR DIET AND  
REDUCE YOUR WEIGHT. TAKE  
OIL OF KOREIN.

Lack of fresh air, it is said, weakens the oxygen-carrying power of the blood, and the action of many of the vital organs are hindered thereby. The heart action becomes weak, work is an effort and the beauty of the figure is destroyed.

Put on by indoor life is unhealthy if nature is not assisted in throwing it off, a serious case of obesity may result. When you feel that you are getting too stout, take the matter in hand at once. Don't wait until your figure has become a joke and your health ruined through carrying around a burden of unsightly and unhealthy fat.

Spend as much time as you possibly can in the open daily, and get from Drug Dept. at Kahn's, Broadway, San Pablo and Sixteenth street, or any drug store, a bottle of Korein capsules, take one after each meal and one before retiring at night.

Weight yourself every few days and keep up the treatment until you are down to normal. Oil of Korein is absolutely harmless, is pleasant to take, helps the digestion and even "fast days" treatment has been reported to show a noticeable reduction in weight.—Advertisement.

### Hair Often Ruined by Washing With Soap

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle and ruins it.

The best thing for steady use is just ordinary multifid coconut oil (which is pure and greaseless), and is better than the most expensive soap or anything else you can use.

One or two teaspoonsful will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get multifid coconut oil at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.—Advertisement.

## PLEA IS HEARD FOR SWIMMING POOL AT Y.W.C.A.

MISS CLEO MORTON.

Urging the public of Oakland to contribute to the Oakland Young Women's Christian Association fund of \$30,000 for the installation of a swimming pool and for increasing the field of its work during the coming year, Harry G. Williams, president of the Oakland Merchants' Exchange, issued a strong appeal for the association this morning. Williams said: "Many people seem to think that the Y. W. C. A. is asking for funds when it asks for a swimming pool. These people seem to think that all a girl is entitled to is three plain meals a day and a place to sleep. She is not entitled to a decent dress, she is not entitled to any pleasure; simply because she does not have well-to-do parents she must submit, but submit decently. Yes, these people lay particular stress on the decent part of it. It is such narrow charity as this that is filling our reformatories, that is making the working girl an easy victim to those who seek to exploit her."

"But strange as it may seem, this particular girl that the Y. W. C. A. seeks is not alone at the request of the working girl. It comes from the girls in the Oakland public schools, the high school girls of this city are clamoring for it, according to the statement of the woman in charge of the physical instruction of the girls in the high schools. When we find such a universal demand for a sanitary swimming pool, where girls and women may indulge in the pleasure and exercise of swimming under proper surroundings and under proper conditions, it can scarcely be termed a frill. I sincerely hope that our charity is not so narrow that we are to deny the womanhood of this city what they desire so much."

"With the years of service, not only in Oakland, but all over the civilized globe, that the Y. W. C. A. has given to the uplifting of womanhood—that service should be sufficient guarantee to us that the Oakland association has real need for what it asks. The splendid service rendered in Oakland entitles it to a swimming pool if the girls wish it for recreation and as a public benefit. Its past work entitles the Oakland Y. W. C. A. to additional funds to broaden the scope of its activities, to do still more for the women and girls of the city."

"Those who know what the Oakland association has done cannot possibly consider that it is asking for any frills, and if it is asking for frills then I know of no institution that is better entitled to them."

Due to the lack of workers in the Y. W. C. A. campaign, the work of raising funds for the swimming pool will continue another week.

## How to Destroy Catarrh Germs and End Catarrh Forever

Catarrh is a germ disease and the only way to cure it so it will stay cured and never come back is to kill and drive out of your system the catarrhal germs which have found lodgement there. When the germs go the catarrh will stop. The trouble with most treatments, like sprays, salves, creams, greasy balms, lotions, etc., is that they give only temporary relief by opening up for a while the closed head, throat and nostrils. In a little time the catarrh comes back as bad as ever.

People who suffer continually from catarrh should drop such temporary make-shifts and get something that really gets at the root of the disease and stamps it out. There is nothing better for such cases than breathing into your nose and lungs the pleasant, soothing, healing, steam of Eucalyptus (made from purest oil of Eucalyptus and combined with other powerful germ-killing, antiseptic and germ-destroying ingredients). Hyomei penetrates and heals the inflamed, swollen membranes of your nose and throat, stops discharges, clears the passages and completely overcomes the disease by destroying its cause. For catarrh germs cannot live in your body after Hyomei reaches them. The Owl Drug Co. and many other good druggists in Oakland and vicinity have long sold Hyomei on a positive guarantee of successful results or money back and find this generous policy pays. Most druggists are now giving a pocket inhaler made of hard rubber with every complete treatment sold. This makes a very simple, easy and convenient as well as thoroughly reliable means of treating by the best known method this dangerous and often disgusting disease.—Advertisement.

## SAVE YOUR HAIR AND BEAUTIFY IT WITH 'DANDERINE'

Spend 25 Cents! Dandruff Disappears and Hair Stops Coming Out.

Try This! Hair Gets Beautiful, Wavy and Thick in Few Moments.

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scourf robs the hair of its luster, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25-cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?—Advertisement.

## Why Suffer From Migraine or Sick Headache?

Dr. J. J. Caldwell says that this exceedingly distressing disease does not shorten life, but does not appear to be curable. Sufferers from this affliction are condemned to undergo the periodic attacks every few weeks until they are forty years of age, after which the attacks are less frequent, and which disappear entirely. Palliative measures during the attack are all that is possible to suggest, while care to the diet is the best preventive measure. An attack may often be prevented by taking two anti-kamnia tablets when the first symptoms appear. And one anti-kamnia tablet every two hours during the attack and quiet, it eases the pain and brings rest and quiet. Anti-kamnia tablets may be obtained at all drug stores. Ask for A-K Tablets. They quickly relieve all pain.

## CLEVER FOLK GIVE THEIR AID TO BOYS' BAND

PAULINE SCHEMMER.

"Let's help the kiddies!" That's the spirit shown by the society and business people who are selling seats and boxes for tonight's benefit ball at the auditorium for the Exposition Boys' Band and it is what the clever folk who will furnish the program of entertainment that precedes the dance, are saying.

Among the performers will be Miss Pauline Schemmer, pretty vocalist, who made her first bow to Oaklanders over the Orpheum and who, by the way, is thoroughly an Oakland girl. She will give several numbers from her repertoire and will remain for the dance, which will last into the wee hours of the night.

Among the other features of the entertainment program will be Greek dances presented by Miss Esther McKay and Miss Ethel Osborne, pupils of Stella MacDonald Reed. Master George Hall, boy soprano, will sing several numbers. The young vocalist is well known in east bay church and music circles.

The music for the dance will be furnished by the senior Exposition Boys' Band of fifty pieces. A special orchestra will play for the opening program.

The general committee in charge of the big benefit includes Supervisor John Mullins, Harry G. Williams, E. L. Vander Kaillen, George Keefe, School Directors Turry Boyce and Louis Aber and A. L. Vander Naillen.

## Captain Parsons to Watch the Supervisors

B. W. Parsons, formerly prominent in the affairs of the so-called "Committee of One Hundred," now president of the West Oakland Improvement Club, has assumed the duty of watching the Board of Supervisors at their weekly meetings.

"The supervisors are doing things that they would not do if they knew that the taxpayers were watching their every movement," Captain Parsons is quoted as saying.

The action of the improvement club followed the appointment by the board last Monday of a truist officer for the county.

## Vallejo Board Plans Visit to Oakland

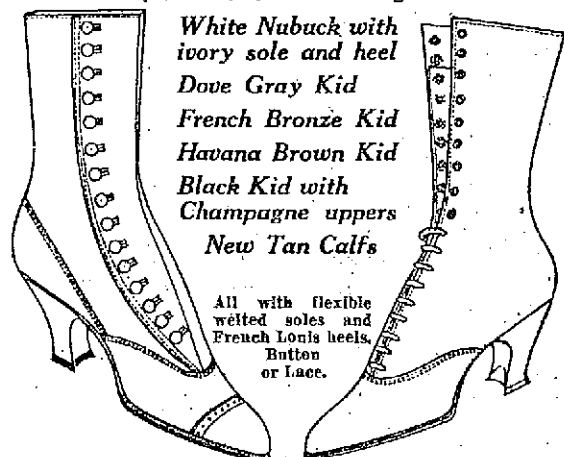

Oakland's schools, which have attracted nationwide attention as model structures, will be inspected and studied by members of the Board of Education of Vallejo before those officials choose plans for new buildings which they intend to erect this year. The school officials will be in the city on Sunday of next week as the guests of City Supervisor Architect John J. Donovan.

Donovan spoke to the school board members Wednesday night, and told them of the Oakland schools. Photographs and detailed plans were carefully examined, as were tentative plans and specifications. No action will be taken, however, until the local schools have been carefully inspected.

## SCALP ITCHED HAIR FELL OUT

Big Flakes of Dandruff Would Peel Off. Hair Dry and Lifeless. In Six Weeks Completely.

## HEALED BY CUTICURA SOAP AND OINTMENT

"Dandruff first started by my scalp being too dry. I washed my hair often but in two or three days big flakes of dandruff would peel off. My scalp itched all of the time and the itching was so intense during the day that I had to irritate my scalp by scratching. My hair fell out and became dry and lifeless."

"The trouble lasted about four months before I started using Cuticura Soap and Ointment. I rubbed the ointment on my scalp at night and washed it out in the morning with the Cuticura Soap. In six weeks I was completely well." (Signed) Miss Ruby Beck, Lehi, Utah, July 15, 1915.

## 'MOVING PICTURES' ARE KEPT MOVING

Heirlooms of the Hurlbert family, consisting chiefly of portraits when Mrs. Anne Constable Bulette refused to accept as her share in the estate of her sister, the late Florence A. Hurlbert, are going to a beggar. County Treasurer M. J. Kelly has refused to accept them in storage under order issued by Superior Judge Wells to Attorney Frank Mitchell, who is desirous of settling up the estate for Benjamin F. Hurlbert, administrator.

Mrs. Bulette announced that she was disappointed in the bequest made her by her sister and declared in court recently that she would not accept the family art gallery under any condition, neither would she give a receipt for the heirlooms in order to relieve the administrator of his legal responsibility.

Armed with the court order turning over the goods to the county treasurer, expressmen unloaded a cart full of pictures, portraits and other accumulations at the Hall of Records today.

Deputy County Treasurer Plumer refused to accept the consignment, holding that it would establish a bad precedent. The goods found a temporary resting place outside of the treasurer's office and the problem of their disposition.

"The treasurer is only expected to accept cash or jewelry," said Deputy Plumer. "We can't go into the storage business."

## Unity of Effort in Civic Work Is Urged

Urging that every member of a Rotary Club regard himself as a brick in wall of progress, F. L. Bateman, head of the Chicago Traffic Club, and one of the best known freight experts in the world, spoke yesterday before the Oakland Rotary Club at their regular weekly luncheon in the Hotel Oakland. The freight expert, who is president of the Traffic Club of Chicago, the largest organization of its kind in the world, the Transcontinental Freight Company, and the Illinois Warehousemen's Association, spoke principally upon freight and warehouse problems. He is in Oakland as a visitor to the Santa Fe Loss and Damage convention.

The speaker urged that the commercial organizations work solidly together, declaring that thus only could real results be achieved.

"In Chicago this is one of the most noticeable features of business life," he declared, "and every business man gets in and works for the common good."

WOULD SECURE CONVENTION. Glenn Woods, superintendent of the musical work in the Oakland School Department, left Oakland today for Lincoln, Nebraska, where he is to wage a spirited campaign for the convention of the National Music Supervisors' Association, for next year.

## Berkeley Attorney Sued for Divorce

Albert Raymond, an attorney, living at 2245 Hears Avenue, Berkeley, was today made defendant in a suit for divorce brought by Under McLaughlin (Raymond), who charges cruelty. The complaint, which was placed on the secret file, recites the marital differences of the couple, who have an attractive home in one of Berkeley's fine residence districts opposite the University of California campus.

Mrs. Rose Levy Fox of Berkeley has been granted an interlocutory decree of divorce from David Fox, whom she charged deserted her. John H. Levy, an instructor at the University of California, a brother of the plaintiff, testified that Fox had taken his wife to a resort in Sonoma county and then left her there in order that he might remove his effects from their home. Fox is said to have gone to England.

Mrs. Marie Sorenson of Hayward wants a divorce from Carl M. Sorenson, alleging that he deserted her. Helen Louise Hecox has commenced suit again Jay Russell Hecox, whom she says deserted her the day of their wedding. The couple have a daughter. They were married at Quincy in July, 1912.

## Franklin to Give Midnight Matinee

So insistent has been the demand for seats during the engagement of Billie Burke in "Peggy" at the Franklin that the management of the theater has determined that it will be necessary to give a "midnight matinee" tomorrow night to accommodate the crowds. The attendance at this attraction has been so tremendous and so many people have been turned away that in order to give everyone an opportunity to see Billie Burke in "Peggy," the Franklin has arranged for this extra performance Saturday night. The "midnight matinee" will commence at 11:00.

## High School Girl Is Not Yet Found

Ethel Oakes, the 15-year-old Fremont high school girl who has been missing since March 3, has not yet returned to her home in order to give everyone an opportunity to see Billie Burke in "Peggy," the Franklin has arranged for this extra performance Saturday night. The "midnight matinee" will commence at 11:00.

The police are working on the theory that the child may have fallen into the hands of white slavers who operate from Oakland and San Francisco. The police of California have been asked to look for the girl and Mrs. Soto.

## Long's Market Anniversary

The first anniversary of the opening of Long's Market on Washington street will be observed tomorrow. Handsome souvenirs will be given to all the women shoppers. J. H. Long, after whom the market is named, is one of the pioneer coffee merchants on the Pacific Coast and among the largest importers of coffee in the west. He has built up the market until it ranks with the finest in the east bay region and his hosts of friends among the buying public will join tomorrow in honoring him.

## Pastor to Assume Role of Scribe

The imaginary narrative of "Tertius, a Greek Scribe," will be given in installments from now until Easter, by Rev. Albert W. Palmer, pastor of Plymouth Congregational church. Assuming the character of Tertius, Mr. Palmer will give each Sunday morning, beginning this Sunday, a report of his investigations into the story of the life of Jesus. The idea will be, according to the pastor, to see Jesus through the eyes of the men and women among whom he worked.

## CAMP CONDITIONS BRING FIRST FINE

The State Commission of Immigration and Housing, which was charged with the enforcement of the Labor Camp Sanitation Act by the last legislature, has just secured a conviction in the first criminal prosecution instituted under the provisions of this law. Clint Miller, a contractor who has been operating a labor camp in connection with reclamation work near Knights Landing, was convicted of violating the law and fined \$25 in a trial in Woodland, the county seat of Yolo county.

Miller was charged with violating practically every section of the law. The evidence produced by the commission's inspectors proved that the sleeping facilities were inadequate and insanitary, that no toilets were provided, that the mess tent was unscreened and unclean, and that the camp grounds were wet and strewn with garbage and refuse. It was shown that the laborers had been required to sleep on the wet ground—no bunks or cots being provided. The judge imposed a comparatively light fine because only seven or eight workers were housed in the camp, and Miller had turned over the camp to another contractor between the first and second inspections made by the State Housing Commission. The principle of the law, however, was settled in the effect that the operator of a labor camp can be held criminally liable for violation of the camp sanitation law, although no civil action has been previously taken to have the camp declared insanitary. This is a strong tool in the hands of the state authorities, and the commission has announced that all violators of the law will be vigorously prosecuted henceforth. For more than a year general inspectors of over one thousand labor camps have been made and owners instructed and warned of the requirements; but henceforth the commission has announced a policy of rapid follow-up inspections and prosecutions.

## FRATERNITY LAW EVADED IN SCHOOLS?

Board of Education Is  
Told of "Alien"  
Chapters

Problem of Deficit Also  
Arises Before the  
Directors

A new angle in the high school fraternity puzzle, which some time ago gave the board of education a problem when it was supposed that all fraternities in Oakland had been disbanded, is now before the Oakland board. Following the discovery that the fraternities were running full force in San Francisco comes the knowledge that there are fraternity members in the Oakland schools who may be immune from the state law ordering their expulsion.

The entire question hinges on whether a student who is a member of a high school fraternity in another state is eligible for admittance into a school in California. The district attorney has been requested by the committee of the whole of the board of education to settle the point.

It was brought out in the committee session that a student might be affiliated with a fraternity in another state, have other students join by mail and virtually organize a chapter here, the legal headquarters still being in another state. The presence of several members of Eastern fraternities in the schools and other indications, it was reported, led principals to be suspicious and an investigation has been ordered.

**DEFICIT FEARED.**  
Rigid economy in order to keep within the budget limits, was urged upon the board of education last night when Secretary Dan Pratt announced that even now transfers of certain funds must be made to replace other funds upon which too many requests have been made and that these transfers will leave the smaller school funds with practically nothing.

As a result the entire system of requisitions in the school department will be revised. Under the present system the budget divides the school money into special funds, one for books, one for fuel and others for other supplies. It is in these funds that overdrafts have occurred.

"This situation is serious," declared Commissioner W. H. Edwards, "for it means that we have not been keeping tab on our expenditures. Emergency requisitions and other drafts have brought down these funds and it is very lucky that we discovered it in time to make transfers and to avert a shortage."

**MOVES "NO NEW BOOKS."**  
Because of the impending shortage Director Edwards moved that no books be purchased by the schools.

## CLOTHES FOR DRESS-UP WEEK BANK ROLLS ARE TO BLOSSOM CERTAIN INDEX TO PROSPERITY

Oakland's getting ready to dress up.

The tailors say so—they're already measuring loyal Oaklanders for new suits for the proper observance of "Dress Up Week." Merchants say that already they have received inquiries for new clothes for the week when Oakland is to "dress up" to celebrate the nation's prosperity.

From March 27 to April 1 Oakland will keep pace with the rest of the nation in new clothes and a new realization that business is good. Every man, woman and child will be urged to participate—by wearing something new, from a suit to a necktie. Even a new collar button, says the committee, will help observe the week of celebration.

"Dress Up Week" was a custom started last year when a national committee proposed to the people of the United States that they "dress up" to celebrate dawn of prosperity. This year they'll "dress up" to celebrate again—but this time to celebrate

the presence of prosperity. It simply means that everyone will be urged to wear something new with the advent of this fine spring weather and feel well dressed.

Special "stunts" will probably be arranged by the commercial organizations to advertise the week. Last year a balloonist dropped tickets on the crowds. The committees have not decided on this year's "stunt" yet.

"Dress Up" is founded on sound psychological principles, say the committee members. In this hurry of modern life one cannot judge a man save by his clothes, and the well-dressed man, therefore, is deemed prosperous.

It's very simple—dress up and look prosperous, and you're helping your city to be prosperous. Prosperity is here, say the business men. They ask that the people prove they realize this, and at the same time put Oakland in a position to enjoy more prosperity.

And the whole country's going to do the same.

## Patron Saint of Ireland Is Honored by Erin's Sons

St. Patrick's day was observed in all of the bay cities today. Irish organizations of all kinds holding exercises in memory of the patron saint of Ireland. A big public celebration is being held this afternoon in the Exposition Auditorium in San Francisco.

In Oakland the official recognition of the day has been left to the Catholic parishes of the city and environs, will, for the most part, be held this evening.

St. Andrew's Catholic church, thirty-sixth and Adeline streets, will hold its celebration in Knights of Columbus Hall, Thirteenth and Grove streets, this evening. Father J. J. Quinn, the pastor, will preside. Professor R. E. Kern, the church choir master, will have charge of the program of Irish music, songs, recitations and dances.

Father Maurice Barry, the pastor, will preside at exercises to be held in St. Patrick's church in West Oakland this evening. William J. Kennedy, prosecuting attorney, will deliver an oration on St. Patrick. A program of Irish dances, music and folk songs will be given.

**BIG BALL THIS EVENING.**  
John J. Cox, president of the Ancient Order of Hibernians of Alameda county, has charge of arrangements for the annual ball of the organization, to be held in Maple Hall this evening. Members of the organization will attend from all of the bay cities.

St. Mary's Catholic church at Eighth and Grove streets did honor to the saint with a solemn high mass at 10 o'clock this morning. Rev. Father E. P. Dempsey was the celebrant. Rev. Father Thomas J. Kennedy served as deacon and Rev. Patrick McGrattan as sub-deacon. St. Patrick's church members held a celebration last evening. Irish songs, music, dances and recitations made up the program.

## STORK VISITS MOST OFTEN IN OAKLAND

More Second, Third and  
Eighth Babies Born  
in This City

State Board of Health  
Makes Report Show-  
ing Record

Oakland mothers are anti-race suicide. No less an authority than the state board of health has just declared in an official report covering a period between January and October, 1915, that Oakland mothers are not only welcoming the stork, but that more second, third and eighth babies are received in Oakland homes than any where in California.

The percentage of "second babies" is 27 per cent.  
The percentage for "third babies" is 14 per cent.  
The percentage for "eighth babies" is 1.1 per cent.

These percentages are computed on the basis of each 100 babies born in the period, during which time Oakland cradles received a total of 2,595 healthy, happy, bouncing youngsters.

And although the state does not give Oakland the laurels on the percentage of the "first born," the average is very high. San Francisco, with a population of over 425,000 is credited with 40.1 per cent; Los Angeles, with a population in excess of Oakland, has a credit of 40.4, while the mothers of this city claim a credit of 39.7 per cent.

Says the board report:  
"There are few differences between the three cities individually, except that in Oakland the per cents are relatively higher than in San Francisco or Los Angeles."

Further facts revealed in the interesting statement show that the rate of births per 1000 population throughout the state has increased in five years from 13.4 to 16.7 per cent, and that the rate of infant mortality has fallen from 116 in each 1000 births to 86 in each thousand. The mortality statistics show also that 95 baby boys in each 1000 fail to live beyond first infancy, while 77 baby girls in each 1000 expire in the first months of life.

## SPEED FINES NOT AGREED BY JUSTICES

Judge Frank Mitchell  
Tells District Attorney  
"Hands Off"

The Penalty to Fit the  
Crime, as Rule,  
He Says

Contradicting the assertion of District Attorney Hynes that all the justices of the peace in the county had agreed upon a fine of \$25 to be imposed upon speeders for a first offense, Justice of the Peace Frank Mitchell of San Leandro declares that at no time did he come to any such understanding with his fellow magistrates or with Hynes.

Judge Mitchell's denial follows a protest by District Attorney Hynes against the action of the San Leandro magistrate in reducing the fine of \$25 in a case before him. Hynes stated that the \$25 fine had been agreed upon and was the usual penalty inflicted for the first offense. "As far as I am concerned, there has been no agreement between myself and Mr. Hynes about a \$25 fine since I came into office," Mitchell says.

Six speeders who came before Judge Mitchell this week were fined from \$10 to \$15, and only one speeder, who had previously been arrested on a similar offense, and who when first arrested a year ago it is alleged attempted to bribe the motor traffic officer, was fined \$25. According to Judge Mitchell the other cases of speeding were not serious offenses and he did not in his opinion warrant heavier fines than those imposed.

# IMPERIAL PAVLOVA, QUEEN OF BALLET RUSSE, WITH OPERA TROUPE

THREE NOTED STARS WHO WILL APPEAR IN OAKLAND WITH THE BOSTON GRAND OPERA COMPANY. LEFT, TAMAKI MIURA, THE REMARKABLE JAPANESE SOPRANO, AND (RIGHT) ABOVE, MAGGIE TETTE, AND BELOW, GRAHAM MARIL.

The season of three performances by the Boston Grand Opera Company combined with the Pavlova Imperial Ballet Troupe to be given at the Auditorium Opera House next Monday, Tuesday and Wednesday nights will not only be a glorious feast of beautiful music, but will also delight all who care for beautiful stage pictures, exquisite costumes and beautiful scenery. Such painters as Josef Urban, Leon Bakst, S. Elme and Boris Anisfeld have contributed to make

these productions unique in the history of the stage in America. For the ballet performances alone over one thousand costumes are carried and Pavlova never permits a shabby or soiled costume on the stage—each dress looks as if it had just been finished. To keep all these in the best of condition no less than five wardrobe women are traveling with the company. The splendid beautiful light effects we shall see in "Mme. Butterfly" and "L'Amore del Tre

Re" calls for the services of no less than twelve electricians and all the requisite paraphernalia is carried along. The orchestra numbers fifty of the finest players in Boston and when the flute, the oboe or any other instrument has a bit of solo work to play it stands out in a way that makes the portion of the entertainment alone almost worth the price of a ticket. As to the principal singers, many of them rank among the world's very great-

this year, and that the school library fund be held for emergency. This was opposed by Miss Annie Florence Brown, who declared that such a plan would work a hardship on the teachers. Purchasing Agent H. W. Bridgman will have a complete report of the financial situation and a new method of ordering supplies by the next meeting.

District Attorney W. H. L. Hynes is still the legal adviser of the board of education. He says so. The board agrees.

Hynes was asked to ask the attorney general who advises the board. State Superintendent Hyatt had refused to make the inquiry.

Hynes answered that the fact was so well known that he did not care to make a fool of himself by asking so childish a question.

"Mr. Hynes is right," said Aber. "I am sorry now that I voted for a proposition of this kind. Certainly we knew better."

"But why didn't he ask?" persisted Edwards. "I would have made this board look foolish, and not him."

"Well," said Miss Brown, "we know who our adviser is any way—that's an apparent fact."

"Does the district attorney have to take orders from us? Can he refuse to write the letter?" asked Aber.

"Certainly he can refuse," said Miss Brown. "He is supposed to give his advice and know his business."

TO SOLICIT MONEY.

A request that the board permit subscriptions for Polish relief work to be taken in the public schools was referred to the committee of the whole after some discussion.

"We have permitted this twice," said Aber, "once for the Belgians and once for the Jewish relief. If we are to have any more, let us have them in one bunch."

"Mrs. Reagan handled one and I was on a committee," said Miss Brown. "I know nothing about it. It is a good thing, though."

No action was taken pending an investigation.

A contract for building the annex to the Lakeview school was awarded to L. Thornally, lowest bidder, at \$11,354.

Rules for the use of school assembly halls were passed upon in a plan to systematize the free use of school rooms. Three days' notice must be given by any organization desiring to use a school hall, no smoking is allowed, and the attendance at the meeting must be twenty-five or more; gambling and liquor is forbidden. The application form was also adopted last night, in which responsible officers must sign for the meetings.

That provision should be made in the next budget for an evening class at the Fremont High school was the opinion of Superintendent A. C. Barker, who said that the Melrose evening school had proved the necessity for such work. This class only ran for a short time.

Work will begin probably this week on removal of the old apparatus in Chabot observatory to the new observatory in Leona Heights. The apparatus will be packed and disposed of in the new structure, where all plans have been perfected for receiving it.

Joseph Brady, a laborer injured in school employ a year ago, and still, according to his complaint, unable to use his arm, asked a permanent disability rating. The Industrial Accident Board has been looking into his case.

Director Edwards wanted to hold a trial to ascertain if Brady was really hurt while on duty for the schools. He was informed that the state commission would attend to that detail. Dr. N. K. Foster reported that Brady would not report for medical treatment nor co-operate with physicians. The case was laid over for local discussion.

## CUT THIS OUT

OLD ENGLISH RECIPE FOR CATAR-  
RAL DEAFNESS AND HEAD  
NOISES

If you know of some one who is  
troubled with Catarrhal Deafness, head  
noises or ordinary catarrh, cut out this  
formula and hand it to them, and you  
will have been the means of saving some  
poor sufferer from blindness and deaf-  
ness. In England, scientists for a long  
time past have recognized that catarrh  
is a constitutional disease and neces-  
sarily requires a constitutional treatment.  
Sprays, inhalers, and nose douches are  
liable to irritate the delicate air passages  
and force the disease into the middle ear,  
which frequently means total deaf-  
ness, or else the disease is driven down  
the air passages toward the lungs, which  
is equally as dangerous. The following  
formula, which is extensively used in the  
English language, is a constitutional  
treatment and should prove especially ef-  
fective to sufferers here who live under  
more favorable climate conditions.  
Secure from your druggist 1 ounce of  
Parment (Double strength). Take this  
home and add to it 1/2 pint of hot water  
and 4 ounces of vinegar and stir until  
dissolved. Take one tablespoonful  
four times a day. This will often bring  
quick relief from distressing head noises,  
dizziness, hoarseness, and breathing  
become easy and hearing improve.  
The inflammation in the eustachian tubes  
is reduced. Parment is used in this way  
as it acts directly upon the blood and  
mucous surfaces of the system and has  
a slight tonic action that facilitates the  
recovery of the patient. The preparation  
is easy to make, costs little and is pleas-  
ant to take. Every person who has cat-  
arrh should give this treatment a trial.

## THE VALUE OF TRUTH

Truth in business is just as important  
as truth in every-day life; truth creates  
confidence, establishes good-will and  
builds a reliability that will not be  
wrecked by the storms of competition.  
Through three generations people  
have learned to place reliance on the  
advised words of Scott's Emulsion,  
because they are untarnished, unex-  
aggerated truths about a household  
remedy of real and actual worth.  
The popularity of Scott's Emulsion  
is increasing as intelligence advances,  
because in these days of adulterations  
it continues to give pure cod liver oil  
medicinally perfected with glycerine and  
hypophosphites to build strength, im-  
prove the blood and strengthen the lungs.  
It is free from alcohol or opiates—a whole-  
some food-tonic, truthfully advertised.

## CHALMERS FACTORY FIGURES REVEALED

Big Auto Dealers' Convention  
Brings to Light Story of  
Achievement.

(By EDMUND CRINNION.)  
The big Automobile Dealers' con-  
vention planned for next Tuesday in San  
Francisco by L. H. Rose of the L. H.  
Rose Chalmers Company, brings to mind  
at the present time the remarkable  
achievements of the man who is to be  
the leading speaker of the event—Hugh  
Chalmers.

The story of the automobile industry  
for the past eight years during which  
time Chalmers has been a conspicuous  
figure among the leaders, is one that  
has never been related in the annals of  
industrial activities. Eight years ago if  
the head of any of the motor car com-  
panies then doing business, had been  
told that it was possible to sell a year's  
output in the space of twenty-four hours,  
he would have considered the informant  
lacking any vestige of gray matter. Yet  
on November 17, 1915, at probably the  
most remarkable sales convention ever  
held in Detroit, 600 automobile mer-  
chants from widely scattered sections  
of the United States contracted to take  
\$22,292,000 worth of Chalmers automo-  
biles in the short space of forty minutes.  
"It seems a fitting coincidence that the  
above remarkable record should mark the  
eight anniversary of Hugh Chalmers' death  
in the automobile industry. In the  
year 1907, Chalmers, then drawing a  
salary of \$72,000 a year as vice-president  
and general manager of the National Cash  
Register Company, decided that the  
automobile industry offered him greater  
opportunities as a business builder and  
executive. The E. R. Thomas-Detroit  
Motor Car Company, then a struggling  
concern, was casting about for a man of  
recognized ability as an executive. A  
big and insistent demand had sprung up  
throughout the entire length and breadth  
of this country for more and better motor  
cars. The problem at that time was not  
one of marketing the cars, but related  
more to efficient production and ability  
to make deliveries on time. If the city  
of Detroit, instead of automobile industry  
is concerned, ever did resemble a mining  
camp, it was during that period. Auto-  
mobile companies with high sounding  
names and modest resources were housed  
in old-fashioned factory buildings sheds  
and even tents. Spent was the watch-  
word of the hour. Quality came second.  
If consulted at all, and hardly any two  
cars were alike, even though turned out  
by the same maker. At this unsettled  
period Mr. Chalmers became president of  
the Thomas-Detroit Motor Car Company,  
the turning out of a Thomas-Detroit car  
which sold at \$2750.

"Practically from the day he joined  
the company, Mr. Chalmers had a single  
idea foremost in his mind, and that idea  
was to manufacture a high quality auto-  
mobile, to sell at a medium price.  
Through his efforts the Chalmers Thirty,  
the first car bearing his name and sell-  
ing at \$1500 was produced in 1908. The  
name of the company was changed to the  
Chalmers-Detroit Motor Car Company.  
Mr. Chalmers having purchased a sub-  
stantial interest in the concern.  
"At that date the need for a car of  
rugged construction with the ability to  
stand up under all sorts of abnormal  
conditions was more pressing than it is  
at the present time. Both city pavements  
and country roads, supposed the most  
gruelling tests on the early products  
of the motor car factories. The new  
immediate approval of the motor car  
buying public. The car stood up under  
all the endurance tests, hill climbs and  
races in the next two years, winning the  
much coveted Clifton trophy in 1910.  
It rapidly became one of the most popu-  
lar cars of its price class. In the same  
year Mr. Chalmers became the controlling  
factor of the Chalmers Motor Company,  
and he has enjoyed the unique distinc-  
tion of having served continuously as  
president and general manager of the  
company bearing his name since he en-  
tered the field in 1907.

"Under his leadership the plant has  
grown from a single building to one

## FLUSH KIDNEYS WITH SALTS IF BACK IS ACHING

Noted Authority Says We Eat  
Too Much Meat, Which  
Clogs Kidneys.

Take Glass of Salts When Kid-  
neys Hurt or Bladder Both-  
ers You.

No man or woman who eats meat  
regularly can make a mistake by  
flushing the kidneys occasionally, says  
a well-known authority. Meat forms  
uric acid, which excites the kidneys;  
they become overworked from the strain,  
retard sluggish and fail to filter the  
waste and poisons from the blood;  
then we get sick. Nearly all rheu-  
matism, headache, liver trouble,  
nervousness, dizziness, sleeplessness  
and urinary disorders come from  
sluggish kidneys.  
The moment you feel a dull ache in  
the kidneys or your back hurts, or if  
the urine is cloudy, offensive, full of  
sediment, irregular of passage or at-  
tended by a sensation of scalding, stop  
eating meat and get about four ounces  
of Jad Salts from any pharmacy;  
take a tablespoonful in a glass of  
water before breakfast and in a few  
days your kidneys will act fine. This  
famous salts is made from the acid of  
grapes and lemon juice combined  
with little, and has been used for gen-  
erations to flush and stimulate the  
kidneys, also to neutralize the acids in  
urine so it no longer causes irritation,  
thus ending bladder weakness.  
Jad Salts is inexpensive and cannot  
injure; makes a delightful efferves-  
cent lithia-water drink which every-  
one should take now and then to keep  
the kidneys clean and active and the  
blood pure, thereby avoiding serious  
kidney complications.—Advertisement.

## FIGHT STARTED TO EXONERATE PASTOR Lamson-Slaughter Case Is Now in the Hands of Defense Counsel

OROVILLE, March 17.—Bringing maps  
of the pastor's home and surroundings  
to prove that some of the prosecution's  
witnesses could not have seen things they  
said they did, and bringing witnesses to  
establish alibis for various details of the  
girl's testimony, attorneys for Rev. Mad-  
ison Slaughter today started an assault  
on the testimony of Gertrude Lamson.  
Every charge of the pastor's fifteen-year-  
old accuser, says his attorneys, will be  
disproved. They state that they will put  
witnesses on to cover every part of their  
contentions, the last witness to be the  
accused pastor himself.

With the prosecution finished, and the  
defense in charge of the proceedings the  
pastor seemed relieved and almost happy  
this morning. The district attorney's  
forces seemed nervous and taken aback  
today when Attorney Kennedy made the  
positive assertion that he had every need  
necessary to break the girl's testi-  
mony.

FIRST COUP.  
The first coup scored by the defense  
was when it was shown that on the  
night of November 13, when the pastor  
is accused, among other charges, the  
Lamson girl gave wrong testimony  
about the house at Slaughter home. The  
defense proved that there were five peo-  
ple in the house, including two youths,

containing twenty-three main buildings  
with close to one million square feet of  
floor space. Practically from the begin-  
ning Mr. Chalmers has opposed the idea  
of an assembled car. During the past  
eight years there has seldom been a  
time when one or more buildings have  
not been under course of construction on  
the Chalmers' ground, each building  
housing two or more manufacturing de-  
partments turning out complete parts  
from the raw material.

"Just how well he planned was demon-  
strated only recently when the European  
war had been going on for over a year.  
Those automobile concerns who had pre-  
ferred to take the immediate profits from  
assembled cars, rather than building  
ahead for the future found themselves  
suddenly confronted with prohibitive  
prices on finished parts. They found  
that they could not make a reasonable  
profit on an assembled car. Some of  
them failed and the others with suf-  
ficient capital made haste to repair their  
mistake by hastily erecting addi-  
tional manufacturing buildings.

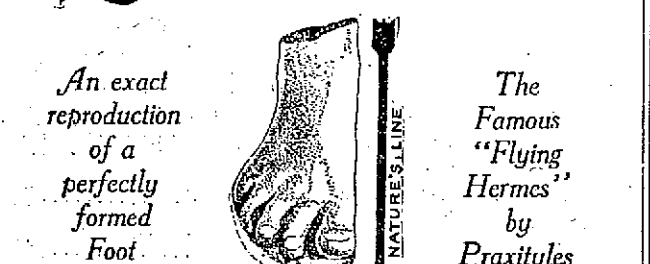

"Through Chalmers' foresight his fac-  
tory was in the enviable position of be-  
ing able to manufacture practically every  
part of the car from raw material. He  
has been foremost in installing new ma-  
chinery of the labor saving type and has  
paid as high as \$30,000 for a single ma-  
chine which stamps out fenders and other  
portions of the cars."

## Out of Sorts

THAT IS, something is wrong with baby, but we can't tell  
just what it is. All mothers recognize the term by the  
lassitude, weakness, loss of appetite, inclination to sleep,  
heavy breathing, and lack of interest shown by baby. These  
are the symptoms of sickness. It may be fever, congestion,  
worms, croup, diphtheria, or scarlatina. Do not lose a minute.  
Give the child Castoria. It will start the digestive organs into  
operation, open the pores of the skin, carry off the foetid  
matter, and drive away the threatened sickness.

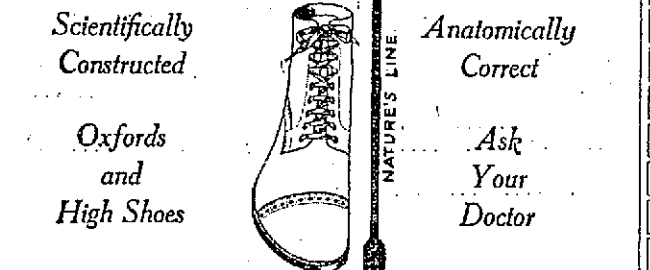

Genuine Castoria always bears the signature of *Charles H. Fletcher*

READ POE.  
ALAMEDA, March 17.—Edgar Allan  
Poe was the American poet whose life  
and works were reviewed by Mrs. B. J.  
C. Cahill, who was in charge of the pro-  
gram at the meeting of the Criterion  
Club, held at the home of Mrs. John  
Laughlin on Bay street. The review was  
followed by readings, some of the best  
known of his poems being interpreted by  
several of the clever members, whose his-  
toric gifts and colorful voices gave the  
expression to the meaning.

DILL IS HOME.  
ALAMEDA, March 17.—Max Dill is

Friedrich St. Sure will give for her son,  
William Porter St. Sure, at the family

feature of the dance, for which a num-  
ber of the younger set have been asked.

haus, assistant professor of decorative  
design, will lecture on "The French Im-  
pressionists: Monet, Manet, Seurat and  
Degas." Today at 3 p. m. "Modern  
Painting" is the general topic.

## RICHMOND OUT FOR 4TH JUBILEE

Mass Meeting Votes to Hold a Monster Parade and Exercises.

RICHMOND, March 17.—At a crowded mass meeting held last night in the auditorium of Lincoln school arrangements were made that insure for Richmond the largest Fourth of July celebration ever held in this city or in Contra Costa county. Not only will every local force be put to work to insure the success of the three days of joy which were decided upon but from every section of the county and from all the east bay cities an effort will be made to draw a large and fun-loving crowd.

The meeting was presided over by Mayor E. J. Garrard. After some enthusiastic opening remarks in which he stated that the Fourth should be patriotically observed the mayor called upon Rev. T. A. Boyer and City Attorney D. J. Hall, and each spoke of the prospects for a fine and glorious Fourth.

A. C. Faris, city clerk, was instructed to write to surrounding cities and towns inviting them to participate in the Richmond celebration. A feature of the celebration will be the industrial floats which will represent the various industries for which Richmond and Contra Costa county are famous. On this float committee were named J. F. Brooks, George Rolph, Crockett Warren, H. McBrine, Pinole; E. H. Tilden, Charles Stewart and C. F. Beck.

The general committee will be headed by Mayor E. J. Garrard, with Senator J. C. Owens, vice-chairman and A. Faris, city clerk, secretary. The first meeting of the committee, which includes the chairman of the sub-committees will be held on next Thursday evening at Lincoln school.

Dr. W. R. Scroggs who resigned after removing from this city to Berkeley, was elected head of the Moose Hall Association last night to take the place of Dr. W. R. Scroggs who resigned after removing from this city to Berkeley.

## INTERVENOR HAS DAY AT HEARING

Attorney Declares Borrowing Power of W. P. Is Owed to Rio Grande.

The intervenor in the litigation involving the Western Pacific Railway Company was given an airing in the United States Circuit Court of Appeals today when Attorney F. D. Madison argued in behalf of the Savings Union Bank and Trust company, representing the owners of Rio Grande. Madison argued that the company, representing the owners of Rio Grande, had not borrowed a dollar to aid in its building operations by reason of its \$50,000,000 bond issue had not that issue been guaranteed under contract by the Denver & Rio Grande Railroad, Madison contended that that contract was a vital factor in the situation.

Madison explained at length the contract which provided for the guarantee of interest, principal and taxes and all other necessary expenditures until the bonds should be fully paid, both principal and interest. He contended that the Denver & Rio Grande, he asserted, was binding upon the Western Pacific and that with the railroad into whose hands the property might eventually fall, Madison also took occasion to state that the attorneys for the receiver and the bondholders of the Western Pacific had no steps could be taken looking toward the enforcement of the provisions of contract B which would not precipitate a crisis in the Denver & Rio Grande railroad.

Replying to that, he declared that it was for that reason that it was desired to make the road a party to the suit.

## SUGGESTION TO WOMEN

Who Are "Just Ready to Drop."

When you are "just ready to drop," when you feel so weak that you can hardly drag yourself about—and because you have not slept well, you get up as tired out next morning as when you went to bed, you need help. You can get it just as Mrs. Maxwell did. She says:

"I keep house for my little family of three, and became completely run-down. I was weak, nervous and could not sleep. Finally I was unable to do my housework. A friend asked me to try Vinol. I did so and improved rapidly. It toned up my system, I regained my strength, am no longer nervous, sleep well, and do all my housework."

Mrs. J. C. Maxwell, Montgomery, Ala.

There is no secret about Vinol. It owes its success to the medicinal extracts of fresh cod livers, tonic iron and beef pentone, the oldest and most famous body-building and strength-giving tonics.

So many better like the above are continually coming to our attention, that we freely offer to return the money paid for Vinol in every case where it fails to give satisfaction.

The Owl Drug Co., Oakland, Cal.  
P. S.—In your own town wherever you live there is a Vinol drug store. Look for the sign—Advertisement.

# Elliott Is Building Up a Team That Should Bat for an Average of .280

Creator of the Hall-Boys

## Willie Zimmerman Is Showing Speed in Center

### Young Martin Looks Reasonably Sure of a Steady Berth

By C. W. PERKINS, JR.

BOYES SPRINGS, March 17.—Manager Rowdy Elliott changed his camp routine today when he ordered batting practice in the morning instead of the usual hard grind. He is building a team that should bat around .280. Rocky Middleton was on the job bright and early this morning and appears to be in great shape. Rocky has been taking good care of himself and has little worry over the fact that he reached camp late. Bill Kenworthy is nursing a sore arm which has bothered him for the past few days. Bill is not quieted by the bad wing, however, for he may be seen almost any day running around the bases with his mouth full of water in a generally vain endeavor to half-drown Barbeau at the third station.

Elliott is leaning to his left, but it is quite evident that with the splendid form he is showing, Speed Martin will surely land a regular berth. Many ambitious batters will take three healthy swings with Martin in the box. With a class A team behind him, Speed could pitch like a big leaguer. Dutch Klawitter, Ray Boyd, Clint French and Sammy Bear were all read this morning. This is a good indication that Elliott proposes to use them in the coming exhibition games. Every one of the above mentioned players is in pretty good condition.

## FANS ARE GETTING ABOARD EXCURSION TO BOYES SPRINGS

Rowdy is leaving nothing undone in his efforts to produce a heavy hitting club this spring. Every day he leads from four to six twirlers and each twirler is expected to lay down a neat punt and then smash on his trip to Boyes. Willie Zimmerman is beginning to show his true form. He is able to turn his back on the ball and center field, which was Johnston's chief deficiency. Willie is proving himself to be a fast man on the bases as well. The Oakland infield this year will probably be the speediest in the league. Berry gets the ball away in great style for a big fellow. He is a natural runner and his worthy round-out infield which will be the talk of the circuit. Rube Gardner was given a rather unpleasant scare the other day. Gardner was drinking from a metal pitcher when a foul tip nearly knocked the vessel from his hands. He was found sitting on the ground with his head under a table. A pleasant condition existing in camp is that no one has been seen drinking from a metal pitcher since. The twirlers have unusually steady control this spring. This steady always was a staple of the Oakland team. The Oakland players and the Oaks will doubtless be here again next spring.

## TIGERS

VERNON TRAINING CAMP, SAN JOSE, March 17.—Roy Mitchell will be the last Tiger to report. He is coaching a Texas college ball team, and has been permitted to stay in his old home town. He will join the club in Los Angeles April 1. Mitchell is not a connoisseur of a chance to play against the Quins, but he is a mighty handy man to have sticking around. Frank Arenas is sincere in his belief that he will put over a come-back this year. He has kept up the game since leaving Sacramento and is in shape this spring by working out with the Santa Clara squad. He did no pitching, confining his work to the outfield mostly. Some of the "Tigers" aren't any too strong for the long tramp from San Jose to the training camp. They say that these hikers do not help the wind as much as sprinting. The wind is used on the field, while long hikes are not. However, they're all taking the hike.

## SEALS

SAN JOSE, March 17.—Harry Wolcott, Seal manager, put his boys through their practice game yesterday, but this time the game was for seven innings instead of five as was the case Tuesday. Of course, the Regulars won easily this time by a score of 4 to 1. "Skeeter" Fanning took up the mound duties for the Yankigans and twirled fairly good back up to the fourth inning. In this frame, hit by Eddie and Dick Autry's sacrifice and O'Brien's bad peg let in two runs. Errors by Fanning and Wulff and hits by Downes and Autry, together with Jones' sacrifice, counted two more for the Regulars in the fifth. Johnny Cooney then took up the pitching burden and held the Regulars throughout the rest of the game. Chase, the Redwood City boy, pitched fairly well for three games. Reggie allowed six hits and was touched up for only one, that on an infield hit by Downes, a walk for Wulff and Gay's safety. The more Wolcott watches his team in action, especially the "bush" members of his outfit, the sadder he gets because there is no twenty-man player limit rule or because of there being no state league where he can farm out his raw material for future use. **BEAVERS**

SACRAMENTO, March 17.—The Beavers are expecting some real hard work beginning today when they go up against St. Mary's college for a three-game series. Interest here in the Beavers is at a high pitch. McCredie has let it be known that he favors an eight-club circuit with Sacramento as one of the new clubs. Cullen, Gisto and Clarke look to be the best of the kids the Beavers have this year. Jimmy Clarke and the big Indian, Lou Smith, will work against the collections today.

**BEES**

MONTGOMERY, March 17.—Johnny Nutt, the young outfielder, is on the watch for a torn ligament in his right shoulder. Buddy Ryan and Tommy Pichler are also incapacitated and Blank is having his troubles. Mullins, Texas southpaw, reported. Practice this morning was held. Bumpy Briel is skulking the ball hard. Tom Hughes is rounding into form rapidly.

## Eastern Style of Play Beats Western Clubs

### Laughland Wires 'Golds' Would Have Won in Open Play

Both Pacific coast representatives in the national championship series were out of the running yesterday evening at Chicago when the Illinois Athletic club quitted downed the Oakland club by a score of 2 to 0. The Oakland club, which had defeated the Olympic club national champions by 26 points to 25 in the most exciting game of the Chicago tourney. The Oakland "Y" team was defeated in quite an easy manner by the clever "Red" boys. Fred and Johnson, the I. A. C. forwards, worked in wonderful form, mostly due to the fact that the Western more familiar with the court than the Oaklanders. The "Illini" boys have been playing together for the past five years and on the same court. The "Reds" were an average team, so they had quite an advantage on the "Y" boys in that respect.

Both George Hild and Ed Hild worked around the basket and at the end of the first half they were trailing the former champions by only 10 points. The "Reds" scored 21 points in the second half, however, and with the regulars and Fred and Johnson in expert fashion, they scored 21 points to the "Golds" six in the second half. The "Reds" were looking for a national championship by losing out to the Oakland club. The "Golds" had looked the Olympians in a practice game when the "Reds" were en route for Chicago. But for the fact that the Post-Streeters allowed themselves to be defeated by the "Reds" and the "Golds" would have been on hand to take the title away from them.

An old rivalry will be revived tonight when the Beach Combers of San Francisco try to out splash the Piedmonters in a game of water polo at Piedmont. The local watersports of the game have fought gamely to bring victory to this side of the bay in this branch of aquatic, but at the last moment have always been outplayed by the San Francisco team. This season they hope by early training to develop the speed and endurance necessary to take the measure of the Flying "Y"s. A world of promising material is at hand for the team. Walter Spencer, Frank Armstrong and Gunner Sundman are the stars of the team. While Ralph Kendrick, I. Singer and Kid Kidder are sturdy defenders. O'Connell won his notices as a fast tender. Lack of team work has been the main charge against the team for the last two years. Individually the men are stars, but they fail to play together. Spencer hopes to overcome this defect this season and to train his men into unselfish ways of playing has ordered that in the first few games his men shall pass the ball instead of taking shots at the goal continually. The Beach Combers will be fully represented tonight. This season has always been a dangerous one in the water. An interpretation of the rules in the spirit of fair play that asserts itself very plainly in the playing of the San Francisco sextet. Captain Jack Hartman in a "bad man" under the boys and the local guards must watch him closely to keep the ball from slipping through a corner of the goal net. Eddie Hart plays with the Oakland club in the forward court and his recently developed speed will require a close guarding. Earl Brammton, who has been of many snags and opponents in the forward line, will try his strength against Spencer. Harry Weston, the big goal keeper, will try to block the shots of the local forwards.

## WASHINGTON CREW SCHEDULE OUT

SEATTLE, March 17.—The University of Washington board of control has adopted a crew schedule for the coming rowing season providing two regattas on Lake Washington. The Stanford "varsity" and freshmen crews will race Washington April 8. After commencement at the University of California, the Berkeley crews will come north to row Washington.

The board also approved the track schedule, including the Pacific coast championships at Berkeley, May 6, a dual meet with the University of Oregon at Seattle, May 20, and a dual meet with Oregon Agricultural college at Corvallis, May 27.

## BILLIARDS

CHICAGO, March 17.—Mike Petrie, Chicago, and Joe Concaunon of Jersey City, were the victors in the afternoon game of the pocket billiards tournament. Petrie defeated Morris Pink, Philadelphia, 100 to 88 in fifty-two innings, and Concaunon beat James Maturio of Denver, 100 to 56, in twenty-nine innings. The local boys won 25 and that of Concaunon 13. The first evening game reported in a victory for George Clark of Brooklyn over Ralph Greaves of the boy expert from Monmouth, Ill., by a score of 100 to 72 in twenty-one innings. Clark's opponent was 4 and Greaves 13. E. Blankenship, Detroit, slung the lead by defeating Charles Weston, Chicago, 100 to 42, in eighteen innings. The Detroiters' run was 10.

Here is the first installment of the "Sporting Editor's Pipe Dream, a Baseball Serial":

INSTALLMENT I  
It is Thursday, May 4, 1916. A red letter day, did you say? Yes, and then some! It is the first clash on the home grounds between the Seals and the Oaks, rivals of long standing.

An enormous crowd is assembled to take a peep at this year's near-by teams.

We are all Oaklanders today. No one hails from San Francisco or anywhere else for that matter.

No one but a group of slippery Seals who have come from across the bay in bright new uniforms and chuck full of confidence.

But what does a Seal amount to, compared with a sturdy Oak, or a thousand Oaks, or rather to several thousand Oaks?

"Rowdy" Elliott has brought his charges to the post looking fit and prime as kings.

They are each and every one as clean as a Christmas turkey and as lean as Carranza's treasury.

They have not been to Boyes Springs for their health alone. They have brought back barrels of pep, ginger and electricity and they bounce around like so many jumping jacks. On this particular occasion they are released from the Seals and are ready to do battle.

At least that's the way they look to Oaklanders. And the Oaks are going to swallow the Seals alive, Ping Bodie, Biff Schaller and the rest.

Rowdy Elliott has his spurs sharpened and he is going to ride them as they never were ridden before.

"This game or bust," is the slogan that shoots along the line and that is struck dead in every honest Oakland breast.

(Continued tomorrow.)

## WRESTLING TREAT IN STORE FOR FANS OF OAKLAND

Sam Clapham, who claims to be the Brittle light heavyweight champion and who has met Charley Cutler, Demetral, Olson, Berg, Jordan and other great mat artists, has challenged Peter Vieser, the Oyster, Utah, terror for a match. Clapham is in San Diego at present where he has been winning quite regularly. Clapham tussled with Frank Gatch Sunday night in San Jose. In the handicap match in which the champion was obliged to throw three men. Of the three men, Clapham made the greatest impression with the champ and at the conclusion of the bout Gatch announced that Clapham was the only man in the past five years to stay behind him over two minutes. Clapham was one of the first men to help put the game on a firm basis in San Francisco. Across the bay he was known as the "British Lion." He held Ad Santell to a draw on one occasion, the bout being stopped after twelve or fifteen minutes by the police, the same as with the case in the Santell-Westergaard contest. Promoter Bert McClellan of the newly founded Bay City club, is looking Clapham's record over at present and it may be that Oakland fans will have the opportunity of witnessing him in action.

## NEWSIES COLLECT FUND FOR NOLAN

The late Mrs. May Nolan, mother of Pete Nolan, local newsboy, was buried today, and the newsboys' committee have acknowledged the collection of \$16.15 to go for the burial expenses. The money, left over from the amount collected by the newsies will be placed in one of the local banks and the Seals over and over some other "newsy" is in similar circumstances and in need of the money. The committee which collected the money consisted of Henry Ross, Harry Dundee, Brownie Moran, Mickle Munroe, J. Hemmer, Bill Brago, Al Moffat, George Fusco, George Bailey, Joe McDonough and Frank Plesant.

Why Colds Are to Be Dreaded.  
It is not the cold itself but the serious diseases it often leads to that makes a common cold by far the most dangerous of any of the minor ailments. The cold prepares your system for the reception and development of the germs of pneumonia, consumption, diphtheria and other germ diseases. The quicker you cure the cold the less the danger. ## WILLARD-MORAN BOUT EXPECTED TO NET FORTUNE

### Promoters Are Figuring on a \$140,000 House for Big Battle.

NEW YORK, March 17.—With only eight days more in which to get ready for their bout on March 26, Willard and Moran believe that they will be in all most perfect condition for the contest. Willard has increased his pace in boxing in a marked degree during the past week. He did his best boxing yesterday, and took on an additional round each day up to the middle of next week. He planned a longer road for today and says he will surely get below 250 pounds before he leaves for the ring.

Moran, who has trained zealously, is carefully watched by his trainer, Lewis and his attendants, so that he may not overdo the work either on the road or in the gymnasium.

Today and tomorrow he purposes to repeat his training program, exercised by him for the past few days, and to add a round or two to his glove bouts with Madden, McKinnon and Kendall, making about seven rounds in all each day.

Today only the cheaper seats were left for sale at the arena. The demand for box seats and those situated immediately back of the arena boxes has become so urgent that large sums are being offered to those who can secure reservations several days ago. The promoters of the contest believe that the box office receipts will reach \$140,000.

## Catarrh a Blood Disease

### Drive It From Your System

Because Catarrh affects the nose and throat, causing pain in the nostrils, stoppage of air-passages and gathering in the throat, it has been common practice to treat catarrh with salves, washes and sprays applied to these parts. This mode of treatment cannot give permanent relief, and is liable to aggravate the trouble. Catarrh cannot be cured with it. It is allowed to run on it will disease the bronchial tubes, settle on the lungs and affect the stomach—indeed it is a very serious disease. Don't treat it locally. The one treatment that has proven effective in the treatment of Catarrh is S. S. S., the greatest blood purifier and blood tonic known. It relieves the cause of Catarrh by nourishing the blood, renewing its vigor, giving new life to the system and causing the blood to flow so that it has the vitality to throw off the poison and germs from the system. It is literally a blood bath. It quickly feeds results. Headaches disappear, the gathering in the throat stops, the nostrils heal. S. S. S. is a natural blood tonic and has been found effective in the treatment of all blood affections. Catarrh, tetter, rash, Scrofula. Get S. S. S. at your druggist's. **For the Best Light**

The electric lamp should be of the correct voltage.

On what is termed 100-volt service, we recommend the use of 115-volt lamps and on 200-volt service, 230-volt lamps.

These conclusions have been arrived at after a careful and extensive study of modern electric lamps.

In your purchase of lamps observe this rule which with even voltage regulation maintained by Pacific Service will give the BEST LIGHT. Also assure the Longest Life of the Lamp.

# Reminiscences of a Veteran Sporting Editor

By MR. MILDON.

"I will gamble with the forces of organized baseball," said Harry Sinclair, the Oklahoma oil man, who saved the Federal League.

"I will go this far. I will stand on the ocean bank and throw two dollars into the ocean for every dollar they throw in."

It was these last words that got the old baseball men to thinking and made them eventually hook up with Sinclair.

One of the most remarkable spendthrifts this country has ever known was the man who called himself Coal Oil Johnny, but whose right name was John W. Steele.

Oil was first discovered on the old homestead near Rousseville, Pa., and the first thing John knew he had \$300,000 in cash and an income of \$50,000 a week.

For a man who could scarcely write his own name that was a pretty good meal ticket.

Steele first broke out at Rousseville, and then went to Titusville.

After that he gave Oil City a whirl and finally landed in Pittsburg, where his career began.

He appeared to the guests of the old Monongahela house in a coat of blue velvet.

He gave the head waiter who had ushered him to a seat, a \$100 bill and his immediate servant a \$50 and a second \$50 when the meal was served.

His first public sensation was at a music hall when he stepped from his box on to the stage and told the black faced comedian:

"Sing that again, here is \$1000."

From this resort he drove to the Sanitary Fair, being held in one of the large halls, reaching the floor when someone was making a patriotic appeal "for the contribution of one day's income."

"Here you are sir," and pushing through a gaping crowd that easily parted, he handed over five \$500 bills.

"What name, sir?"

"Put it down to 'Coal Oil Johnny'," thus closing the sobriquet which was never officially recognized by a Vengeance county man.

"John we want a soldiers' monument in Franklin."

Steele searched his pockets. "That is all the change I have," and he passed over \$2500.

There was an older man in Pittsburg who resolved to exploit this youthful and reckless son of Helios.

His name was Seth Slocum and he commanded just the power to open stage doors and to penetrate the innermost recesses of the concealed which would appeal to a prodigal spirit.

Behold therefore this matchless young spendthrift, under his tutelage and the championship route which enabled him to call for one bottle smacked for paucity and only a basket was the real thing.

Under such expert administration there formed about him a great company of grafters, to fawn upon him and to hunt to accept the diamonds and gold pieces—seven when gold was 215 and strips of the long green.

What was more logical than that all his heard of leeches, decked out in the best of the latest made at his expense should be quartered at the Monongahela.

These decent people fled from it, and that a covetous management was forced at length to say:

"Your absence is more to be desired than your company."

GREAT FALLS ENTERS N. W. SPOKANE, Wash., March 17.—Entrance of Great Falls, Mont., into the Northwestern Baseball League became a certainty last night, with the reception by President F. J. Burr of the Spokane club of a telegram from Great Falls from Robert L. Blawie, president of the league, saying: "Great Falls team fully financed and ready to play."

Financial and ready to play, paid me, leaving for Seattle tonight."

## GAME FARM MAY REMAIN IN COUNTY

May Be Maintained at Hayward for Two Years and Then Moved.

The state wild game farm at Hayward, which it was recently announced would be closed down since it had accomplished its purpose, may be maintained for two and a half years and later may be established in a more suitable sheltered part of Alameda county, according to Attorney Carl Westerfield, counsel for the state fish and game commission. Negotiations are at present being conducted between the commission and R. Bedford, owner of the land on which the farm is situated, for the cancelling of the remainder of a ten-year lease so as to permit of abandonment of the farm without delay. Should no satisfactory agreement be reached in regard to the lease, the farm will be carried on for the remainder of the term, two and a half years, as economically as possible.

"The game farm at Hayward has accomplished its purpose," said Westerfield. "It has interested many people throughout the state in pheasant breeding and its exhibits of wild game in different parts of the state have been attended with good results. As far as quail raising and quail hunting are concerned, there is no difficulty in raising a small quantity of quail in captivity, but whenever raising on an extensive scale is attempted disease invariably carries off the stock. In the Illinois game farm 10,000 quail which were about to be liberated were killed off by disease within ten days."

"The state fish and game commission," continued Westerfield, "does not want the people of Alameda county to think that the farm is being abandoned because there is no suitable place for it in the county. The present location is too windy and open, but there are many other places in the county possibly within the shelter of the foothills which might be suitable. If a more successful and profitable method of raising quail and other birds in captivity is evolved we will probably re-establish the Hayward farm in some other location. We have forty acres under lease in Hayward and if we decide to maintain the farm for the remainder of the lease, might do so at small cost by placing most of this land under crops."

Attorney Westerfield stated that while in the east wild game was raised in captivity mostly for wealthy game fanciers, in the west such an enterprise was for utility's sake only and must be on a paying basis.

**Tompkins Will Is Admitted to Probate**

Superior Judge Wells has admitted to probate the will of the late William Tompkins. Monterey county land owner, who died in Oakland recently, leaving an estate valued at more than \$100,000. The estate consists of 650 acres of land in Monterey county, one of the largest holdings in that county by an individual. Three sons and two daughters will share the estate, with the exception of a fee of \$8000 to grandchildren. Attorney Louis Gluckman represents the executors, Herman and Willis Tompkins.

## Policeman Wounded by Mysterious Shot

While patrolling near the police station on Park Place yesterday morning in Richmond, Policeman Dan Cox was shot in the left leg, below the knee, and was at once removed to his home, where the injury was treated.

The bullet was fired from an unknown point behind some one of the buildings in the vicinity. The officer has no idea who made the attempt on his life, and an investigation is under way.

It is thought probable that some enemy of the policeman inflicted the injury for revenge, without attempting to kill him, as every opportunity must have been afforded for deadly aim.

## Hayward Rural Mail Routes to Continue

HAYWARD, March 17.—Notice was received from the postmaster general this week that the three rural delivery routes tributary to this city would be continued as heretofore. The postoffice department after investigation stated that it is convinced the claims of local petitioners, for maintenance of the three routes and the opposition to their proposed consolidation are justified. Post-office inspectors recently inspected the three rural routes and following their report the department decided not to consolidate the routes.

Get an ounce from your druggist and banish the freckles. Money back if it fails.—Advertisement.

## Splendid Laxative for Elderly People

Has Been Prescribed by Well-Known Physician for Many Years.

MRS. RACHEL ALLEN.

The infirmities of age are especially manifest in a tendency to constipation, and call for treatment that will afford relief in an easy, natural manner. The rapid action of cathartic remedies and purgatives that shock the system should be avoided, more especially, as the relief they offer is only temporary, and usually more than offsets the disturbance to the vital organs caused by their violent action. Nearly thirty years ago Dr. W. B. Caldwell, Monticello, Ill., prescribed a compound of simple laxative herbs that has since become the standard household remedy, in thousands of homes. It acts easily and gently, yet with positive effect, without griping or other pain or discomfort. Mrs. Rachel Allen, Galesburg, Kans., is seventy-one years old, and after using a bottle of Dr. Caldwell's Syrup Pepsin wrote that it had done her a world of good and that she intends to keep it in the house always.

Pepsin for fifty cents a bottle. It is a splendid remedy and should be in every home. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 454 Washington St., Monticello, Ill.

at least once a day. Wash thoroughly with a warm, creamy lather of it, then rinse the face with plenty of cold water.

It does not often take many days of such regular care with Resinol Soap to show an improvement, because the Resinol medication soothes and refreshes the skin, while the perfectly pure soap is cleansing it.

In severe or stubborn cases, Resinol Soap should be aided by a little Kresol Ointment. All druggists sell a tin.

## WHEAT NERVOUS; SAGS ON RUMOR

CHICAGO, March 17.—Assertions that forty-four German ships had been seized by the Brazilian government, caused a decided setback today in the price of wheat. The market, however, was leveling. Open prices, which ranged from 1 1/2 to 1 3/4 lower with May at 1 1/2 and July at 1 3/4, were followed by a slight rally, but then a material further decline.

The close was heavy, 3 1/2 to 3 3/4 lower at 1 1/2 and July at 1 3/4. The market was again manipulated up within today's market, while representative stocks were barely firm.

## POLITICIAN AND \$30,000 MISSING

Attorney Welch Leaves Note  
Virtually Admitting  
Shortage.

SAN DIEGO, March 17.—A written confession left in his desk before he disappeared from this city, bearing out the be-

lief of the authorities that he was guilty of embezzlement of nearly \$30,000, was found today in the office of Lester D. Welch, attorney, who is being sought throughout the State as a fugitive from justice. Welch was a candidate for the Senate in the last State election.

Welch's desk was broken open by the police today and a message, with the words "my last note, L. D. Welch," on the envelope was found. Following a paragraph in which he said speculation had caused his ruin, and that he had used his clients' money, the note read: "I did so expecting to pay it back, but the crash caught me. I am sorry, God knows, for my wife and baby. I have done my best and failed. I hope God will protect and

care for them. I will pay back every dollar if I live." Welch, it is estimated, is short about \$30,000 in his accounts. Mrs. Henrietta S. Huff of San Jose, who said she had placed about \$15,000 in Welch's keeping for the making of loans, wrote to a complaint last week charging felony embezzlement, when she said Welch failed to make a settlement. The attorney has been missing for a week.

**JURY COMPLETED.**  
KLAMATH FALLS, Ore., March 17.—The jury was completed last night in the murder trial of A. Ernest Lawrence, charged with participation in the slaying of Mrs. Alma Kuehn in a feud battle in Dodd's Hollow, a remote district, December 30 last. Four days were occupied in obtaining a jury.

## CHURCH WORKERS PLAN CO-OPERATION

Two Hundred Hear Needs of  
Energizing Labors  
for Cause.

Plans for a new movement in church extension work were discussed last night at the First Congregational Church of this city, when two hundred guests, representing churches from Hayward to Richmond, gathered to discuss problems of common interest and importance. The plan discussed was of forming a general church extension body similar to that in operation in the Methodist church. Through this, the church workers pointed out, co-operative church extension work would be easily and efficiently carried on, with a large saving in both effort and money.

Other problems of the church and its work were also discussed during the meeting, which was held after the general fellowship dinner of the church. "Organized Congregationalism" was the topic of Rev. Francis J. Van Horn, who spoke at length on the need of an organized movement such as had been described, to achieve the highest efficiency in the work of the church. Rev. A. W. Palmer, of Plymouth Congregational Church, and Arthur Arlett, president of the Men's League of the institution, both spoke on the work of an institutional church and how its aims and operations may be extended.

C. S. Nash of Berkeley, chairman of the prudential committee of the Bay Association of Congregational Churches, acted as chairman of the evening.

**DR. MEYER TO LECTURE.**  
BERKELEY, March 17.—Dr. K. F. Meyer of the Hooper Foundation for Medical Research, will lecture at 10 o'clock tomorrow morning on the prevention and curing of yellow fever.

## DEATH THREAT IS MADE GOVERNOR

"Jack of Spades" Is Sent to  
Governor Wm. Spry  
of Utah.

SALT LAKE CITY, Utah, March 17.—The Jack of spades, the death warning of the "K. O. D.," a mysterious organization which has been threatening the life of Governor William Spry, has been received at the office of Governor Spry. The governor is in New York. When his secretary, John K. Harby, opened an envelope addressed to the governor, the Jack of spades fell out.

Six months ago Governor Spry received among the thousands of letters threatening him with death in the event of the execution of Joseph Willstrom, the I. W. W. leader, several which were signed "K. O. D." In each of these letters this statement was made:

"When you receive the Jack of spades you will know that your time has come. Your death will follow."

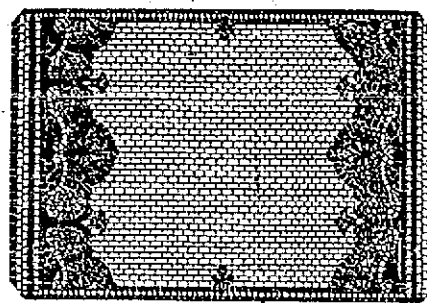

Following the execution of Willstrom, the threatening letters ceased coming to the governor until about two weeks ago, when he began to receive a number of particularly vicious letters from all parts of the United States. Following these came the Jack of spades. The envelope containing this dire card was mailed in Salt Lake.

In the governor's mail have come from Chicago a number of postcards containing a picture of the body of Willstrom, showing the wounds made by the Utah firing squad which executed Willstrom. These postcards bear the inscription: "Murdered by the authorities of Utah. We never forget." The governor's office is informed that thousands of these postcards have been mailed from Chicago to all parts of the country.
